

Using Rubrics to Grade Assignments Assignment

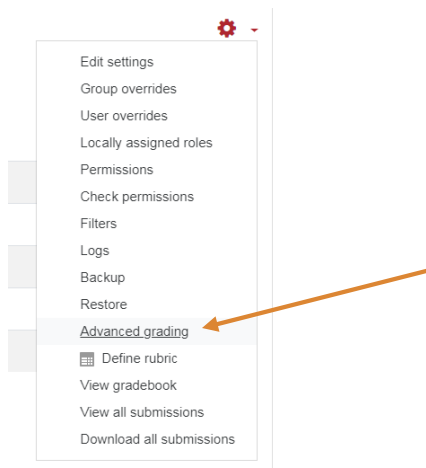

Rubrics are grading forms used for criteria-based assessment. The rubric consists of a set of criteria. For each criterion, several descriptive levels are provided. A numeric grade is assigned to each of these levels.

Create a Rubric Form

1. Go to the course home page.
2. Click on the **Assignment** activity you have created.
3. Click the **Settings button** (top right side of activity), and click on **Advanced grading**. You can also access the rubric editing tools if you select **Rubric** for the Grading method in the Grade section of the Assignment settings, and then click **Save and display**.

- The **Advanced grading** page will appear.

Advanced grading: Example Assignment (Submissions)

- Set **Rubric** for "Change active grading method to".
- Click **Define new grading form from scratch**. If you want to use a template (ie. a rubric you have access to from another assignment and/or course), choose **Create new grading form from a template**.

The setting page will appear.

Large text area for the rubric description.

- Type a **Name for the Rubric**. The Rubric Name should help you identify the skills the rubric is assessing in case you want to re-use or edit the rubric for other assignments. The Description is

optional.

- Click inside of the **Rubric**.

+ Add criterion

- A text box will appear where you have clicked (Criterion description or levels).

* **Always include a level of 0 points in the rubric definition.** Otherwise, Moodle will calculate the lowest levels of the rubric as a grade of 0 for that criteria anyway, and adjust the true grade of all of the higher levels. Including a level of '0' keeps calculations simple and easy to understand for students and teachers alike. You may also use the rubric setting, **Calculate grade based on the rubric having a minimum score of 0** – uncheck this if your lowest levels have a points value greater than 0.

- Type a **Criterion, Level** and **Points**.

+ Add criterion

Labels: Criterion (points), Levels (5+ spelling or grammar errors), Points (0 points)

* Use the Tab key to jump to the next level/criteria.

10. Add a new criterion or level by clicking on the **Add criterion** button or **Add level** button.

11. Choose the **Rubric options**.

Rubric options

Sort order for levels:

- ☒ Calculate grade based on the rubric having a minimum score of 0 ?
- ☒ Allow users to preview rubric (otherwise it will only be displayed after grading)
- ☒ Display rubric description during evaluation
- ☒ Display rubric description to those being graded
- ☒ Display points for each level during evaluation
- ☒ Display points for each level to those being graded
- ☒ Allow grader to add text remarks for each criterion
- ☒ Show remarks to those being graded

12. Click on the **Save rubric and make it ready** button. If you don't want it ready and want to finish it later, click on **Save as draft**.

Using the Rubric

When using the rubric to assess a student's work, you can click on the level describing the student's performance. The selected levels will become light green. A level must be selected for each criterion, otherwise the rubric is not validated by the server as the final grade cannot be calculated.

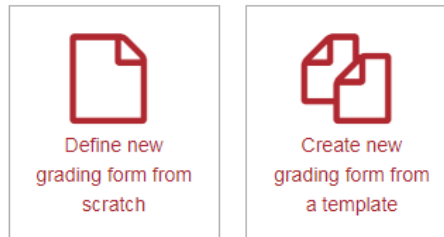

Grade: ✖

Spelling and grammar	5+ spelling or grammar errors 0 points	3-4 spelling or grammar issues 1 points	1-2 spelling or grammar errors 2 points	No spelling or grammar issues found 3 points	Great job!
Ideas	Key words are not near the beginnings 0 points	Main idea or topic is in the first sentence 1 points	Interesting, well started main idea or topic sentence 2 points
