

How to Add an Instructor Information Block

Why add an Instructor Information block?

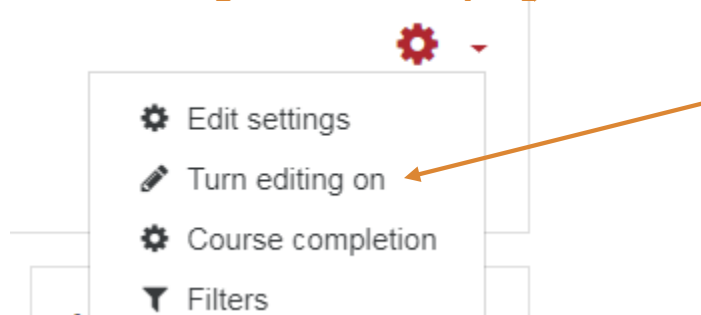

At NorQuest College it is a requirement to have an Instructor Information Block in every course. The student opening a Moodle course wants to be able to identify their instructor and how to contact them with ease. The Instructor Information block should be located at either side of your course page. At a minimum, the Instructor Information Block should include your name, office phone number and email address. It is recommended you put a photo of yourself in this block as well. Having an Instructor Information block is the first step in creating an online instructor presence.

The screenshot shows a Moodle course page for 'Example Course 101'. The breadcrumb trail is 'Dashboard / My courses / M/J Development Category / Example Course 101'. The main content area has a heading 'Announcements' and a section titled 'Section 1' with a dropdown arrow. Below 'Section 1' are two items: 'Example Assignment' and 'Example Quiz', both with checkboxes. A 'Restricted' notice is visible below the quiz. 'Section 2' is also visible below. On the right side, there is an 'Instructor Info' block. It contains a photo of a person in a mascot costume, the name 'Melanie Mattila', the phone number '780-644-6162', and the email address 'melanie.mattila@norquest.ca'. An orange arrow points from the top right of the course page to the 'Instructor Info' block.

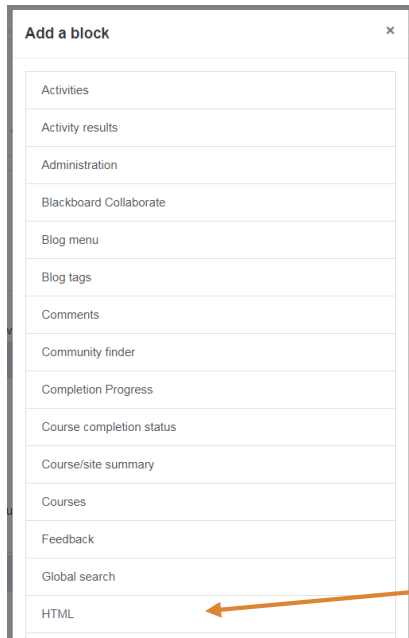

Steps to Create an Instructor Information Side Block

1. Turn editing on at the top right of course page.

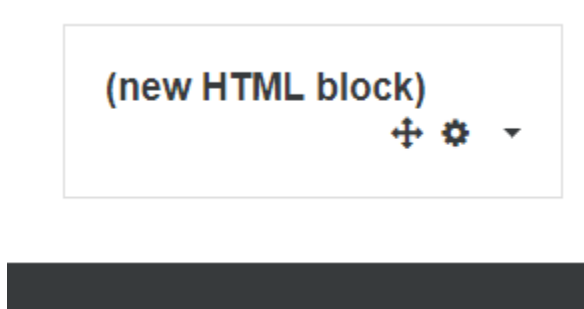

2. Add an HTML Block:

Open up the Navigation Pane on the left. Scroll down to the **Add A Block** block at the bottom left and choose **HTML** from the drop down menu.

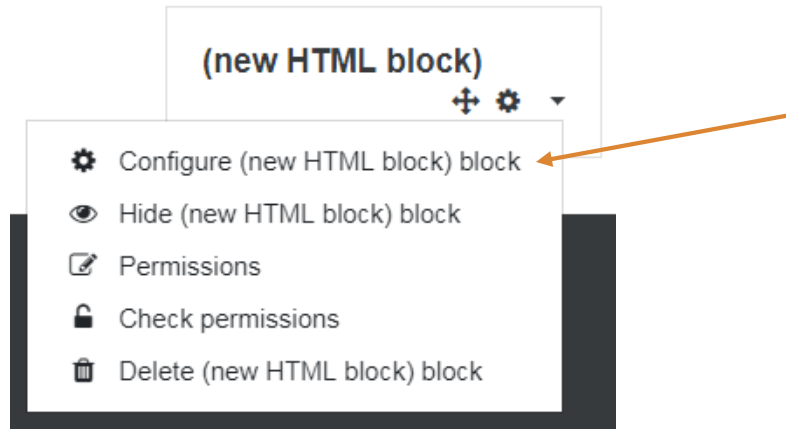

The course page will automatically refresh and a **New HTML Block** will appear on the bottom right of the course page. Note: A HTML block is a standard block that allows you to add text or multimedia to the sidebar of your course.

3. Edit the HTML block:

To edit a HTML block, click on the edit icon (gear) for that block. 
Select **Configure (new HTML block) block** from the menu.

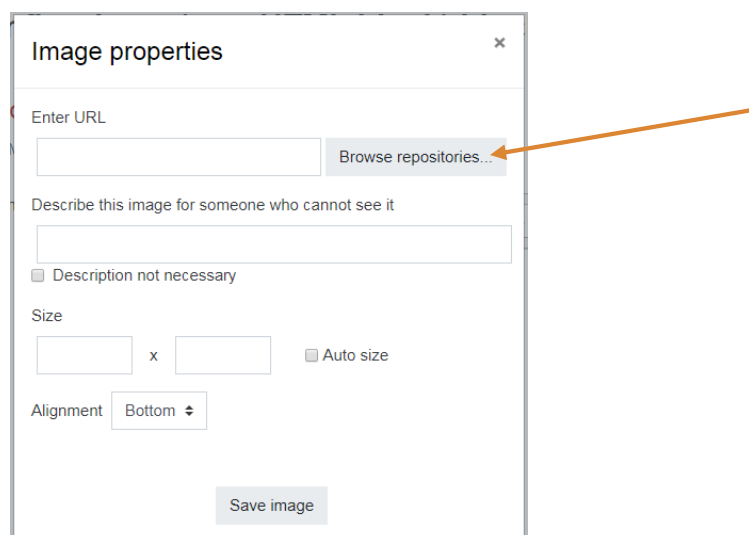

4. Entering Instructor Information:

Block Title: Use “**Instructor Info**” instead of “**Instructor Information**”. If you use the longer title, Moodle will try keeping this title on one line, but by shrinking your profile picture and your contact information for more space.

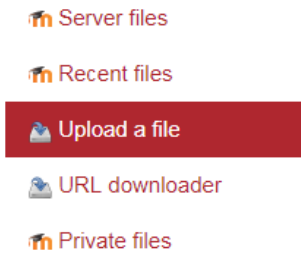

Block title

5. Content: Picture

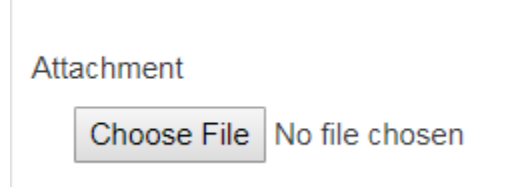

1. To include a picture, select the picture icon.  You will be able to select a picture saved to your computer (recommended) or the Internet.
2. Click on **Browse repositories**.

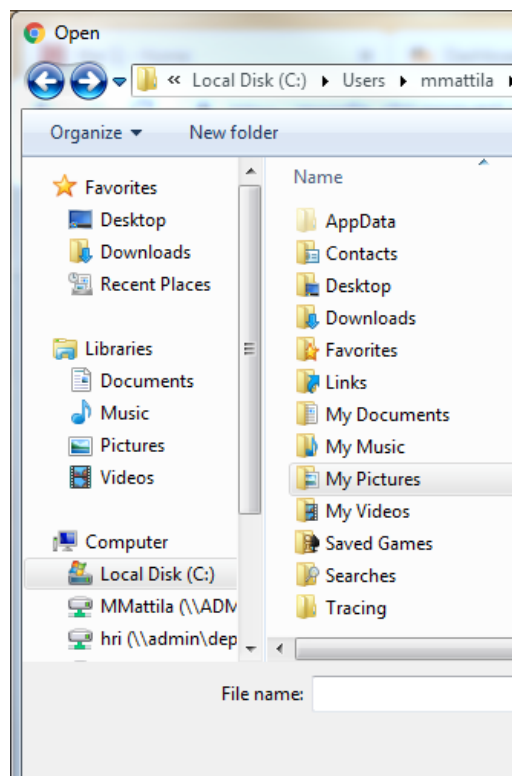

3. Click on **Upload a file** if it isn't selected already.

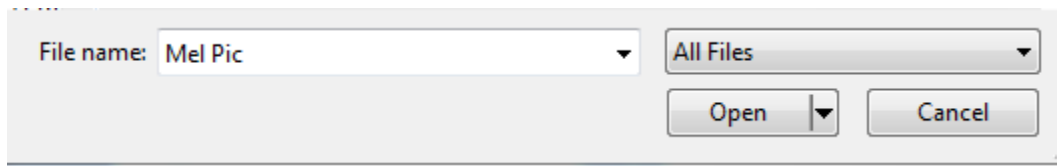

4. **Choose File.**

Navigate to the picture on your computer.

6. Select the file and click **Open**.

7. Your document name will appear beside the **Choose File**. Give the document in the text box **Save as** to have this picture saved on Moodle. (You can use this picture in other courses under **Moodle Recent Files**.)

Choose license

8. **Upload this file.**

9. Give an **Image Description**. This is important for anyone using a document reader. Having courses designed for universal needs from the onset is an important NorQuest Moodle course design principle.

Image properties ×

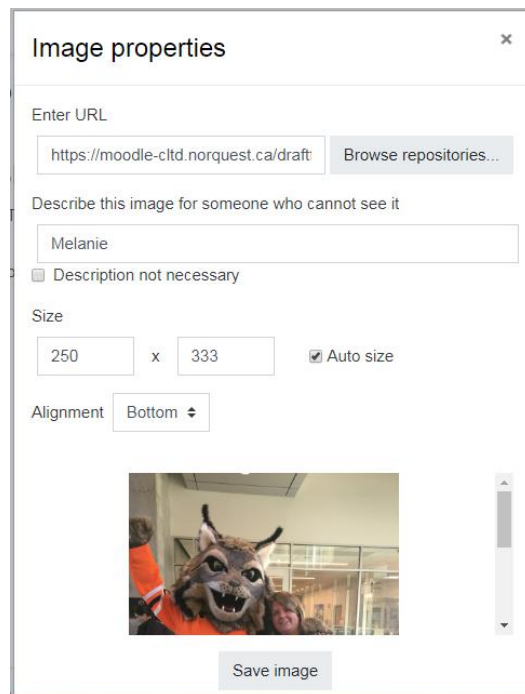

Enter URL

Describe this image for someone who cannot see it

☐ Description not necessary

10. Resize your picture.

Set the **First Dimension** within this range **175-250**. (The second dimension automatically resizes if Auto size is selected.) If you select a smaller sized picture you may have to set **Alignment** to middle.) **Select** Insert.

The image shows a screenshot of the 'Image properties' dialog box in Moodle. The dialog has a title bar with a close button (X). Inside, there is a section 'Enter URL' with a text input field containing 'https://moodle-cltd.norquest.ca/draft' and a 'Browse repositories...' button. Below this is a section 'Describe this image for someone who cannot see it' with a text input field containing 'Melanie' and a checkbox labeled 'Description not necessary'. The 'Size' section shows two input fields: '250' and '333', separated by an 'x', and a checked checkbox labeled 'Auto size'. The 'Alignment' section has a dropdown menu currently set to 'Bottom'. At the bottom, there is a preview of the image, which is a photo of a person in a mascot costume (a grey animal head with orange clothing), and a 'Save image' button.

Instructor Information Content Considerations

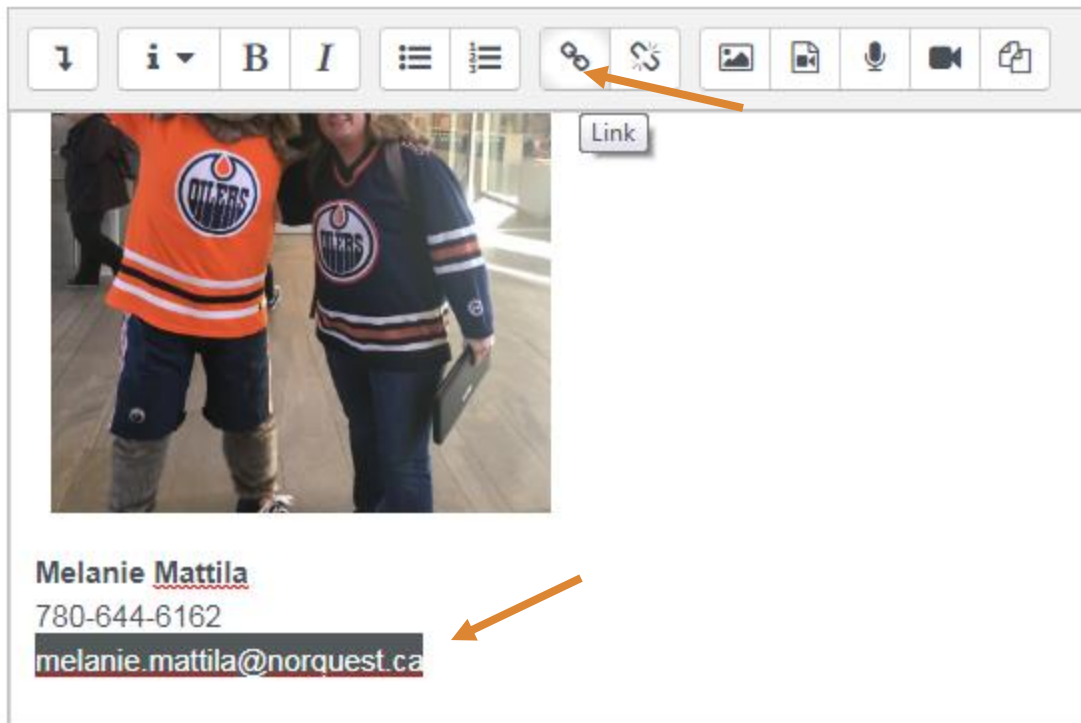

You do not have to use titles (Name, Phone Number...) in this block. Eliminating titles for the information you are providing in this block reduces the length of this block.

Bold your Name.

Use **Shift** and **Enter** to single space the instructor information. Moodle double spaces by default.

Consider hyperlinking your email address.

1. Highlight your email address
2. Select the hyperlink icon.

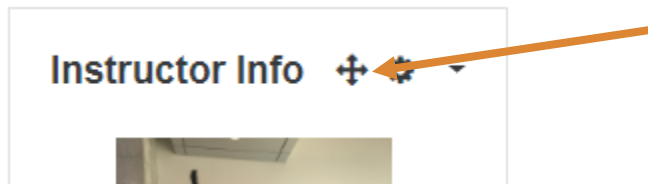

3. Put your email in the **Link URL** text box, putting **mailto:** right before it. For example - mailto:moodle@norquest.ca
4. Select **Create link**

The 'Create link' dialog box is shown. It has a title bar with a close button (X). Inside, there is a text box labeled 'Enter a URL' containing the text 'mailto:melanie.mattila@'. To the right of the text box is a button labeled 'Browse repositories...'. Below the text box is a checkbox labeled 'Open in new window' which is currently unchecked. At the bottom of the dialog is a button labeled 'Create link'.

5. Moving the Instructor Info block to the top of your course page.

You may open the settings section **Where this block appears**. However, the easiest method of moving the Instructor Info block is to **Save Changes** and use the Move icon to drag it to the top of your course page.
