

How to Add a Course Search Box to Your Dashboard

If you need the ability to search courses in Moodle, the instructions below will add a Course Search box to your dashboard.

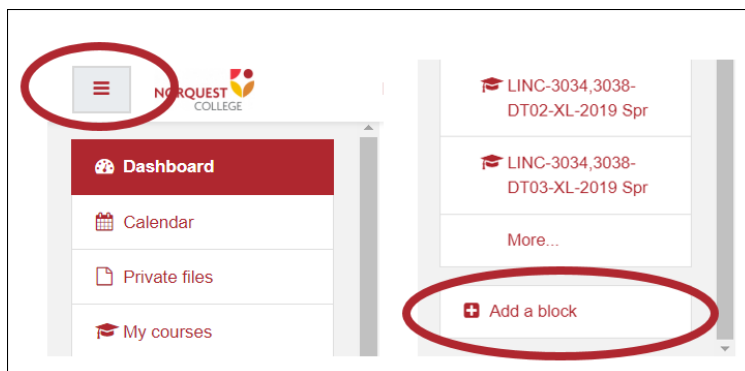

Contents

- Adding a Course Search Box to Your Dashboard

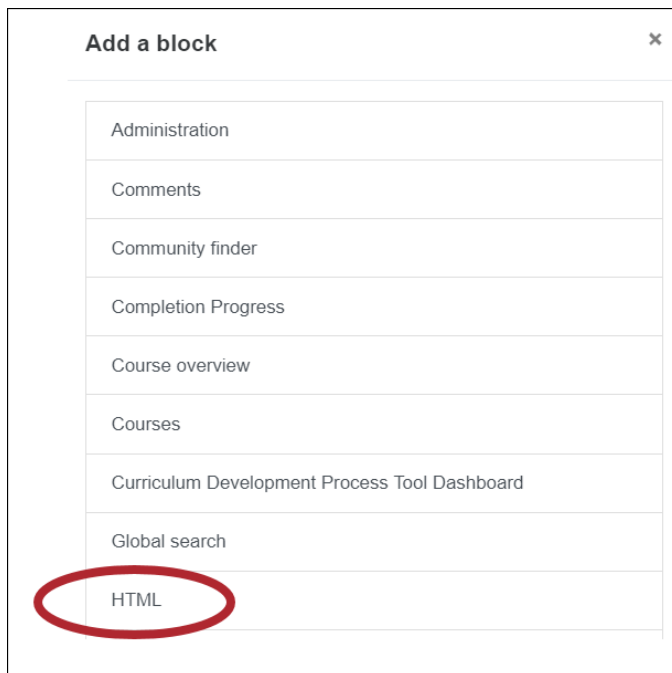

1. Click on **the 'Customise this page' button** (right hand side, near the top). This puts your dashboard into editing mode.

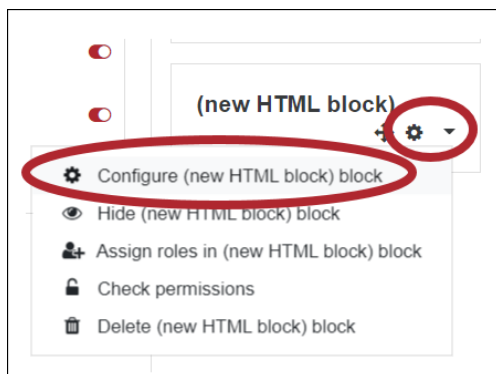

2. Make sure your **Navigation Pane is open** by clicking the **hamburger button**. Scroll to the bottom of the Navigation Pane and click on the **'Add a block'** button.

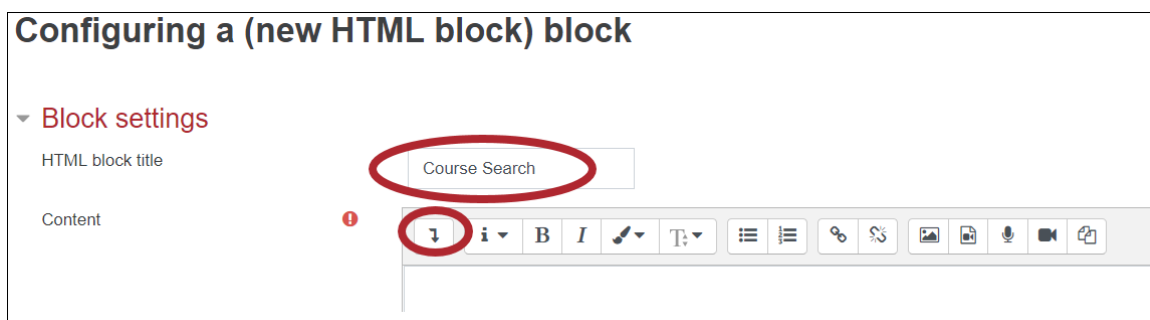

3. Click on the **HTML** option in the popup menu that appears.

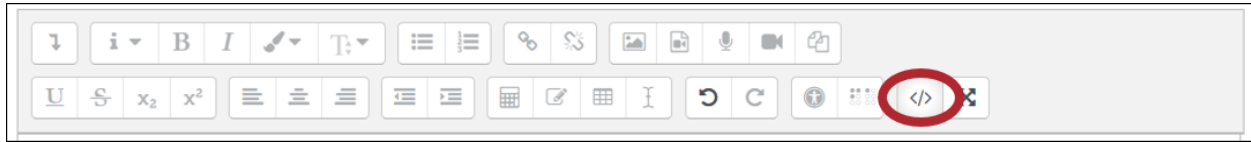

4. Locate the block titled, '**(new HTML block)**' on your dashboard, and **click on the gear**. Click on '**Configure (new HTML block) block**'.

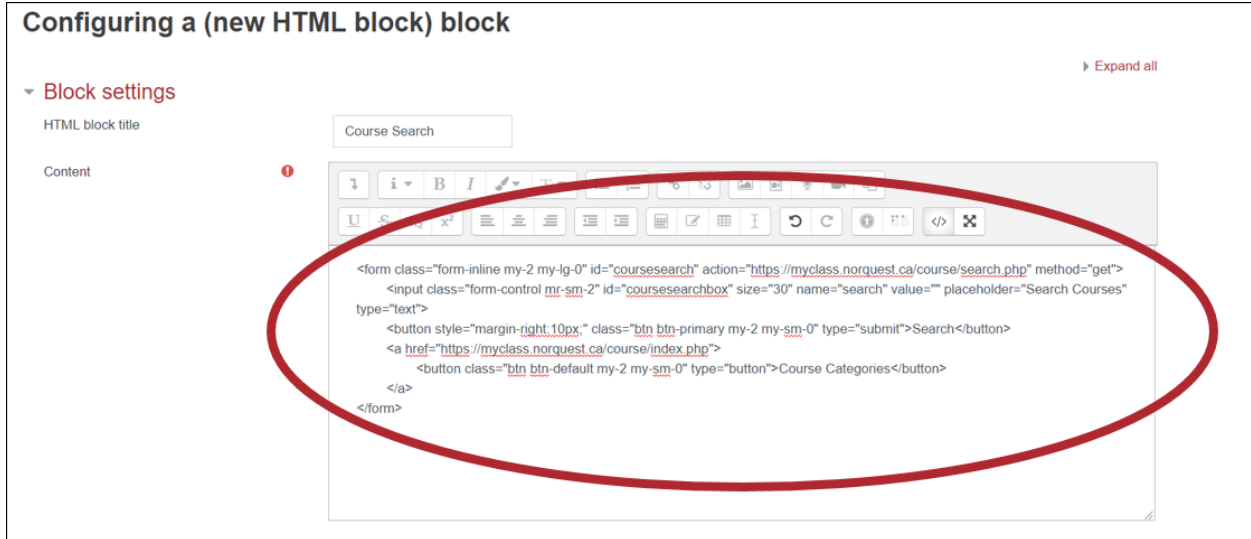

5. Title this block '**Course search**' and then click the '**Show more buttons**' button.

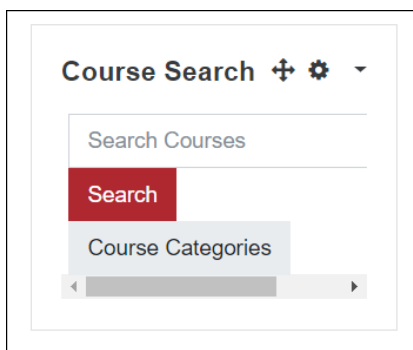

6. Click on the **HTML editor button** `</>`.

7. **Paste the code** from the document titled, '**Course search box HTML code.txt**' into the box, and then click '**Save changes**'.

8. You will now have a search box on your dashboard that will allow you to search courses, or to navigate towards course categories.
