

Navigating Moodle - Tools

There are several Navigational Tools that help you move throughout the Moodle environment with ease. Learning how to navigate in Moodle using these tools saves time.

Contents

- [Breadcrumbs](#)
- [Navigation side pane](#)
- [Links to course page](#)
- [Single Section View](#)

Breadcrumbs

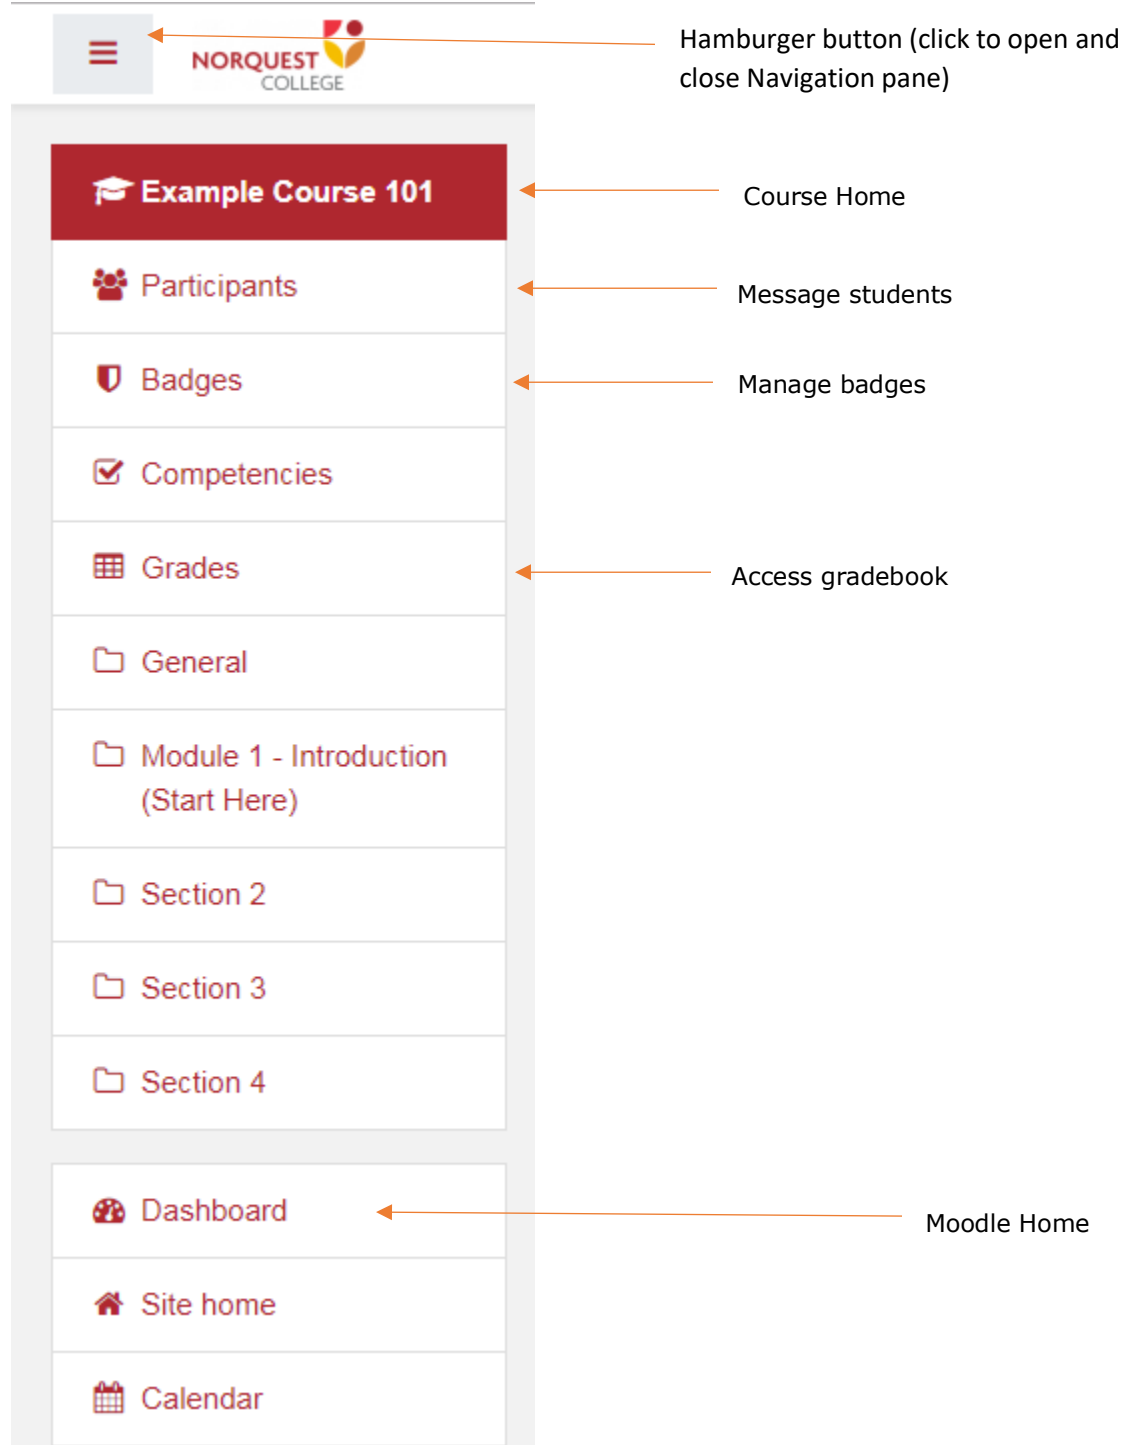

Breadcrumbs are one method to navigate within Moodle. Breadcrumbs appear at the top of every page and tell you where you are in a course and how you got there.

Example Course 101

Navigation side pane

The **Navigation pane** appears on every page of Moodle. You can open and close this pane by clicking on the hamburger button on the top left hand side of the course page. Closing this pane gives more room on the browser to your course and the content within it. From this pane, you can message students using the Participants list, manage your course Badges, and access the gradebook (via Grades).

The screenshot shows the Moodle interface with the navigation side pane open. The pane is a vertical list of course tools and sections. Annotations with arrows point to specific elements:

- Hamburger button (click to open and close Navigation pane)**: Points to the three horizontal lines icon in the top left corner.
- Course Home**: Points to the "Example Course 101" header at the top of the pane.
- Message students**: Points to the "Participants" item.
- Manage badges**: Points to the "Badges" item.
- Access gradebook**: Points to the "Grades" item.
- Moodle Home**: Points to the "Dashboard" item at the bottom of the pane.

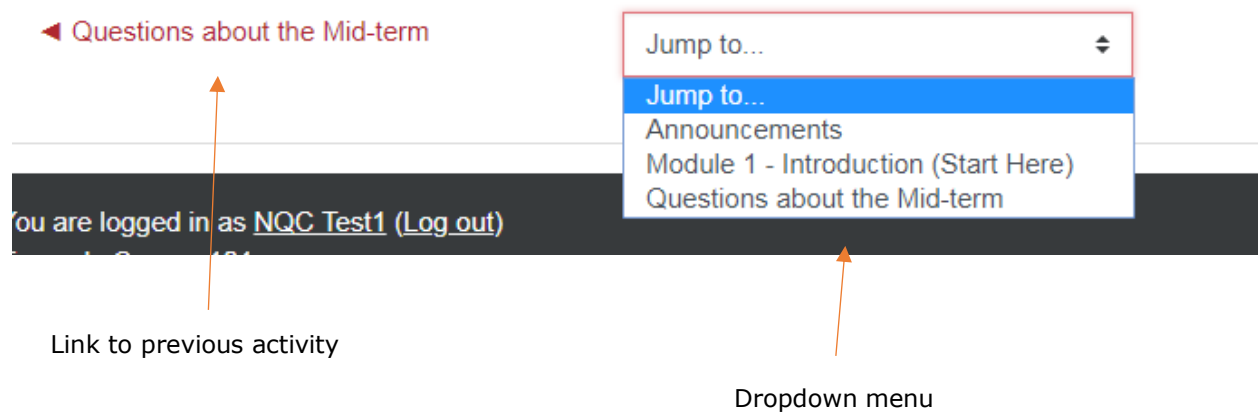

The navigation pane contains the following items from top to bottom:

- Example Course 101
- Participants
- Badges
- Competencies
- Grades
- General
- Module 1 - Introduction (Start Here)
- Section 2
- Section 3
- Section 4
- Dashboard
- Site home
- Calendar

Links to Course Home Page

Rather than using the back arrow or the Moodle breadcrumbs, the most convenient means to return to a course home page is to use the links provided. For instance, you could use the breadcrumb trail, or you could use the link provided in the Navigation pane.

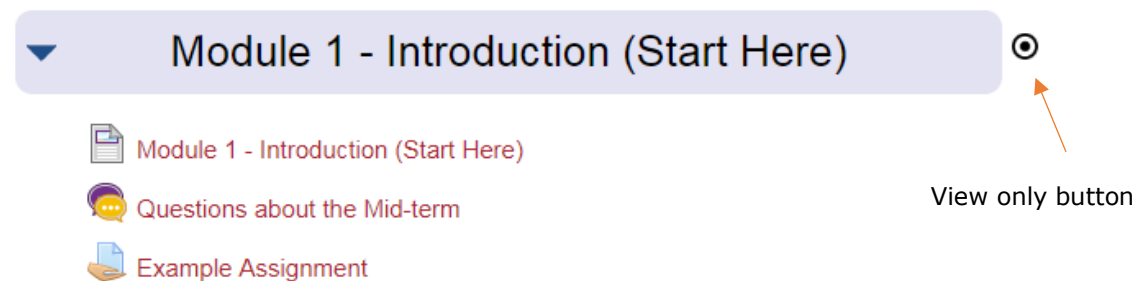

Alternatively, you can use the dropdown menu near the bottom of the page you are on, or use the link beside this menu to navigate towards the previous activity.

Single section view

If you prefer a less busy interface, you can switch the view of the course to show one section at a time. This does not affect anybody else's experience than your own.

To do this, click on the *View only* button on the right hand side of a section:

By clicking this button, your view of the course will look like this:

Section 2 ▶

Module 1 - Introduction (Start Here)

 Module 1 - Introduction (Start Here)

 Questions about the Mid-term

 Example Assignment

Jump to... ▾

Jump to another section

Section 2 ▶

Move to the next section
