

How to Add an Instructor Information Block

At NorQuest College it is a requirement to have an Instructor Information Block in every course. The student opening a Moodle course wants to be able to identify their instructor and how to contact them with ease. The Instructor Information block should be located at either side of your course page. At a minimum, the Instructor Information Block should include your name, office phone number and email address. It is recommended you put a photo of yourself in this block as well. Having an Instructor Information block is the first step in creating an online instructor presence.

- [Moving Your Block](#)

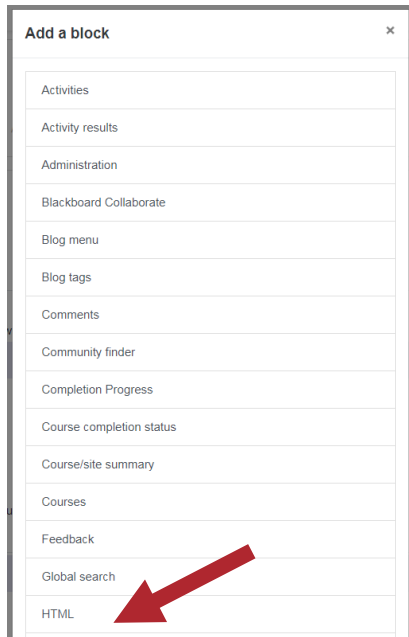

Adding an Instructor Block

1. Turn editing on at the top right of course page.

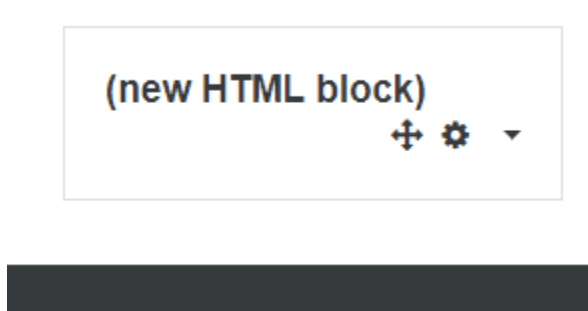

Adding an Instructor Info Block

2. Open up the Navigation Pane on the left. Scroll down to the '**Add A Block**' block at the bottom left and choose '**HTML**' from the drop down menu.

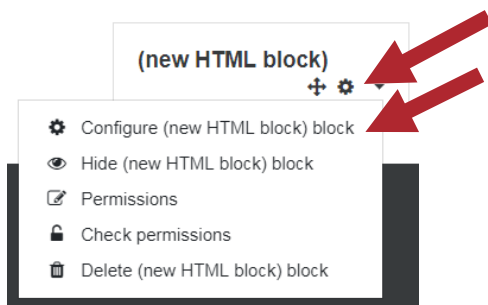

The course page will automatically refresh and a **New HTML Block** will appear on the bottom right of the course page. **Note: A HTML block is a standard block that allows you to add text or multimedia to the sidebar of your course.**

Editing Your Instructor Block

To edit a HTML block, **click on the edit icon** (gear) for that block.  Select '**Configure (new HTML block)**' block from the menu.

Adding an Instructor Info Block

Block Title: Use “**Instructor Info**” instead of “**Instructor Information**”. If you use the longer title, Moodle will try keeping this title on one line, but by shrinking your profile picture and your contact information for more space.

Block title

Instructor Info

Content: Picture

To include a picture, select the **picture icon**.  You will be able to select a picture saved to your computer (recommended) or the Internet.

Click on ‘**Browse repositories**’.

Adding an Instructor Info Block

Click on '**Upload this file**'.

Give an **Image Description**. This is important for anyone using a document reader. Having courses designed for universal needs from the onset is an important NorQuest Moodle course design principle.

☐ Description not necessary

Resize your picture.

Set the **First Dimension** within this range **175-250**. (The second dimension automatically resizes if Auto size is selected.) If you select a smaller sized picture you may have to set **Alignment** to middle.) Select Insert.

Instructor Information Content Considerations

You do not have to use titles (Name, Phone Number...) in this block. Eliminating titles for the information you are providing in this block reduces the length of this block.

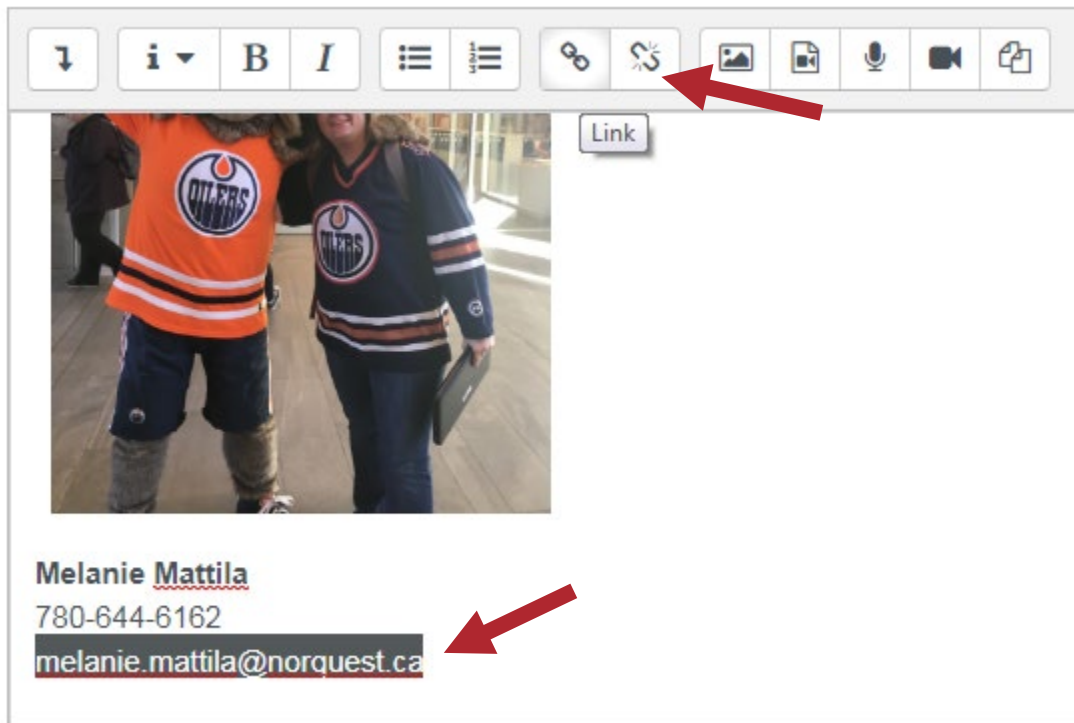

Bold your name.

Adding an Instructor Info Block

Use **Shift + Enter** to single space the instructor information. Moodle double spaces by default.

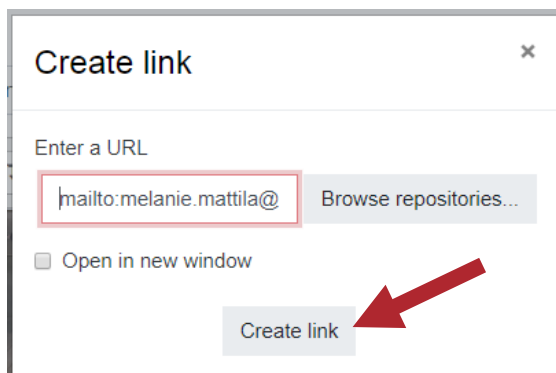

Consider hyperlinking your email address.

1. Highlight your email address
2. Select the hyperlink icon.

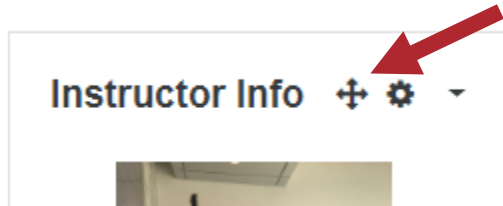

Put your email in the **Link URL** text box, putting **mailto:** right before it. For example - **mailto:moodle@norquest.ca**

Select '**Create link**'.

Moving Your Block

You may open the settings section **Where this block appears**. However, the easiest method of moving the Instructor Info block is to **Save Changes** and use the Move icon to drag it to the top of your course page.

▼ Where this block appears

Original block location ?	Course: Example Course 101
Display on page types	Any type of course main page ▾
