

How to Set Up 'Self Enrolment'

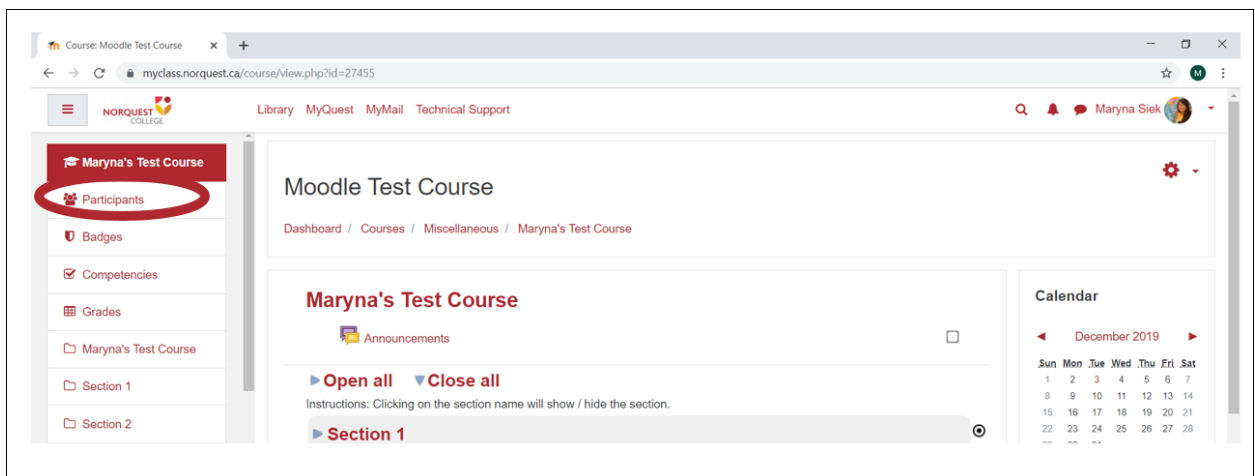

Moodle will allow you to change the settings in your course so that students can enroll themselves. Learners will need to be registered students in the College and able to sign into Moodle in order for this procedure to work. If a learner should be in your course, best practice is to confirm that their record is correct in PeopleSoft before proceeding.

Self-enrolment is especially useful:

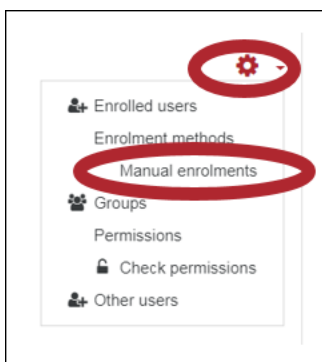

- When learners are unable to see your course and you can't find them in your participant list.
- For courses with continuous or midterm intake.

Process for allowing students to enroll themselves in your course

1. Log into Moodle and click on the course that you would like to add students to.
2. Click on '**Participants**'.

3. Click on the **Settings button** (top right), and select '**Enrollment Methods**'.

4. Click to 'open the eye' next to **Self enrolment (Student)**. You can change the settings for Self enrollment by clicking on the gear icon.

Name	Users	Up/Down	Edit
Manual enrolments	5	↓	   
Guest access	0	↑ ↓	  
Self enrolment (Student)	0	↑ ↓	   
Self Enrollment (Fall)	0	↑	  

5. Type a password in the **Enrollment key** box and click on '**Save changes**'.
If you want students to enroll themselves as part of a group, set 'Use group enrollment keys' to YES (make sure you've set enrollment keys for groups before choosing this).

▼ Self enrolment

Custom instance name	
Allow existing enrolments	Yes
Allow new enrolments	Yes
Enrolment key	StudentEnrollment  
Press enter to save changes	
Use group enrolment keys	No 

6. If you would like to add more enrollment methods (eg. if you want to have different enrollments for Fall, Winter, etc.) click on the '**Add method**' dropdown box and select '**Self enrolment**'
