Maximum grade: 100.00

Repaginate Total of marks: 0.00

Add

- a new question
- from question bank
- a random question

1. From the drop down menu select a new question
2. Choose the type of drag and drop question you would like to add from the pop-up window.

Choose a question type to add

QUESTIONS

- ☒ Calculated
- ☐ Calculated multichoice
- ☐ Calculated simple
- ☐ Drag and drop into text
- ☐ Drag and drop onto image
- ☐ Embedded answers (Cloze)
- ☐ Essay
- ☐ Matching
- ☐ Multiple choice
- ☐ Numerical
- ☐ OU multiple response
- ☐ multiple response
- ☐ Pattern match
- ☐ Random short-answer matching
- ☐ Select missing words
- ☐ Short answer

Select a question type to see its description.

Add Cancel

3. Click Add button to view the settings page of the question type.

Drag and Drop into Text

Question 1
Not yet answered
Marked out of 6.00

My first name is .

I live in .

I last name is .

I work at this college .

My husband's last name is .

He lives in .

Question name*

Question text*

My first name is [[1]].
I live in [[2]].
I last name is [[3]].
I work at this college [[4]].
My husband's last name is [[3]].
He lives in [[2]].

3. Review default mark and adjust as necessary.

Default mark*

4. Identify correct responses. Remember you can use 'unlimited' to describe answers that can be used more than once. [Option- If you have a lengthy or varied topic assignment, you can colour code responses/answer blocks by designating different groups for answers.]

Choices

Shuffle ☐

Choice 1 Answer Group

☐ Unlimited

Choice 2 Answer Group

☒ Unlimited

Choice 3 Answer Group

☒ Unlimited

Choice 4 Answer Group

☐ Unlimited

5. Decide on optional settings: combined feedback and multiple tries penalty and hints.

Combined feedback

For any correct response

Your answer is correct.

For any partially correct response

Your answer is partially correct.

Options ☒ Show the number of correct responses once the question has finished

For any incorrect response

Your answer is incorrect.

Multiple tries

Penalty for each incorrect try

Hint 1

Hint 1 options ☐ Clear incorrect responses ☐ Show the number of correct responses

Drag and Drop onto an Image

1. Make a question name that describes the content of the question.
2. Give directions under 'Question text'.

Question text*

- Identify the parts of a horse.
- Drag the text to the blank spaces.

3. Review default mark and adjust as necessary.

Default mark*

4

4. Optional: General feedback- shown to all students regardless of the students' response. (It may be used to show the correct answers.)

General feedback ?

5. Drag your background image or choose a file on your computer.

Select a background image, specify draggable items and define drop zones on the background image into which they must be dragged.
