

Quiz – Exam Notifications Quiz

By default, you will receive notifications whenever a student submits a quiz in **all** of your courses.

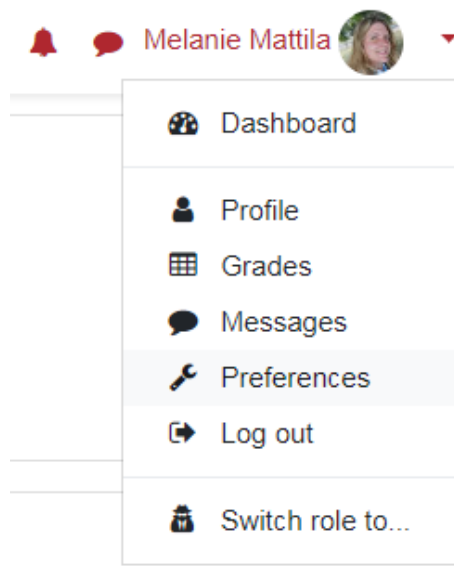

By following the steps below, you will be affecting the exam notifications settings for **ALL of your courses**. This is a 'global' setting that affects your profile on Moodle, not your course settings.

Contents

- Messaging Settings

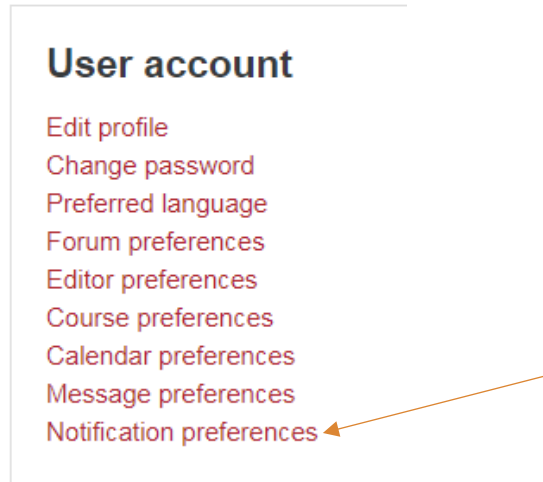

Messaging Settings

1. Once you've logged on to Moodle, locate your **profile** on the top right hand part of the Moodle page. In the dropdown menu, select **Preferences**.

- In the **Preferences** menu, under **User account**, select **Notification preferences**.

Preferences

- The Notification preferences allow you to change how and if you want to receive notifications for various actions performed on Moodle. To change your exam notification settings, scroll down and locate the Quiz notification section. You can choose to receive notifications when you are logged in or offline, and you can also choose popup notifications or an actual email notification.

If you would like to disable email notifications completely, make sure **all** of the email boxes (online and offline) are set to **OFF**.

Quiz	Online		Offline	
	Online	Offline	Online	Offline
Notification of quiz submissions	Off	Off	On	On
Confirmation of your own quiz submissions	Off	Off	On	On
Warning when your quiz attempt becomes overdue	Off	Off	On	On

- If you would like to turn exam notifications off for a particular course, you will need to submit a request to Service Desk for that course.
