

Student View of a Moodle Quiz:

You are able to view activities and resources as a student. Under Profile (top right hand side of browser page), Select 'Switch role to....' and select student. It is helpful to know what the students' view of activities looks like.

On the following pages, the student view of quizzes are reviewed. It is important to note students are given the quiz settings (time, number of attempts allowed, and so on) as they enter a quiz. As well, students are prompted to continue with their quiz (Return to attempt) prior to submitting their quiz (Submit all and finish). These features of Moodle quizzes support students' success.

This quiz opened at Tuesday, 8 January 2019, 2:51 PM

This quiz will close at Wednesday, 9 January 2019, 2:51 PM

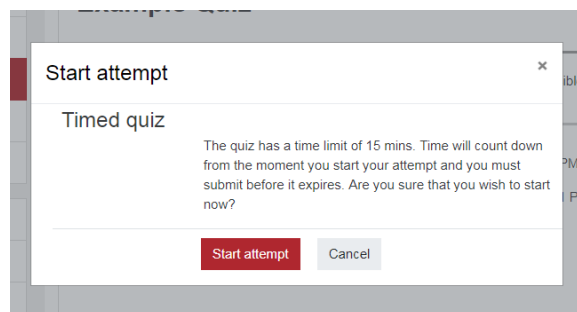

Grading method: Highest grade

Attempt quiz now

The student will see the quiz settings when they select the test.

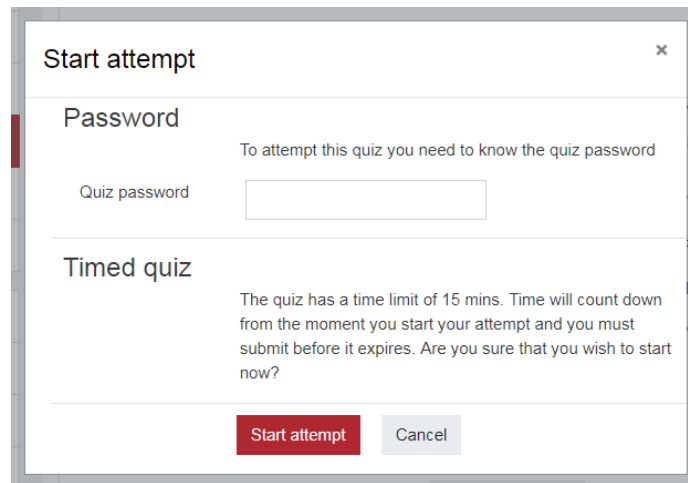

Confirmation Notice Start

When the student selects Attempt quiz now, there will be a Confirmation Notice asking the student to confirm they would like to start the test.

Password for the test

If you selected to have a password for the override, or did not change the password an instructor may have assigned, a password window will appear once **Start Attempt** is selected. The student must input the password and press **Enter**.

Navigating the test

Once the student is in the test, if a timed test was chosen, the student will see the **Time left** to their test count down on the top right of their screen (the browser needs to be in full screen mode). This is also part of the Quiz navigation block, which will allow students to visit other questions (if you allow them to navigate freely). Note: if the browser is not in full screen mode, then the quiz navigation block may be located underneath the question.
