Add a Book

1. Go to the course home page.
2. Click on the **Settings button** at the top right of the page, and select **Turn editing on** from the dropdown menu.

3. Click **Add an activity or resource.** [+Add an activity or resource](#)
4. Click the radio button next to **Book**.

5. Click on the **Add** button.
6. Type a book **Name**. It is optional to have a book **Description**.

The **Name** will be the title given to the activity on the Moodle course page. For easy student navigation, choose a **Name** that is specific and clear as to what the resource is. The **Description** is for your reference unless you check the box below the Description: **Display description on course page**. Only choose this option if it is necessary. This clutters the home page of your course.
