

Resources: Folder Folder

A folder resource is useful if you need your learners to access many files. You can also create a sub-folder. If you delete a Folder resource, all the files associated with this resource will be permanently deleted.

Add a Folder Resource

There are **three ways** you can upload a folder. Please make sure that your folder has been zipped.

1) Drag and drop a folder into the course page.

- Go to the course home page.
- Drag and drop a zip file into the course section.
- Choose **Unzip files and create folder**.

2) Using Add an activity or resource.

- Go to the course home page.
- Click on the **Turn editing on** button at the top right of the page.
- Click **Add an activity or resource**.
- Click the **radio** button next to the Folder and click on the **Add** button.

The Adding a new Folder page will appear.

- e. Enter a **Name** and **Description** (optional).
- f. Drag and drop a zip file or a file in the content box.
- g. Repeat, if you want to add more files to the folder.
- h. Click on the **Save and return to course** or **Save and display** button.

3) Using a file picker.

- a. Upload a folder from Add an activity or resource. (See a-e above)
- b. The File picker window will appear. Select **Upload a File**.

- c. Click on **Upload a File** and the **Choose File** button.
- d. Navigate to the file you want to upload, and click **Open**.
- e. Click on the **Upload this file button**.
- f. Repeat steps a - e, if you want to add more files to the folder.
- g. Click on the **Save and return to course** or **Save and display** button.

Delete a Folder Resource

1. Go to the course home page.
2. Click on the **Turn editing on** button.
3. Click **Edit** next to the Folder resource.
4. Click Delete.

Notes
