

Resources Overview

Course material that a student observes or reads, such as web or text pages, hyperlinks, and multimedia files are called Resources.

Book - The Book module makes it easy to create multi-page resources with a book-like format.

File - A file is a document that you upload from your computer or an online location.

Folder - A folder allows an instructor to display several course resources together.

Label - A label is a bit of text that you can add to any area of a course.

Page - A page resource creates a link to a screen that displays the content created by the instructor. The text editor allows the page to display many different kinds of content.

URL - The URL tool allows you to add links to your course.
