

Moodle Support for Students

It is important for instructors to be aware of the many resources available to students that can assist them in using Moodle. If you are looking for assistance for your students, there are online resources and Moodle support personnel available.

Contents

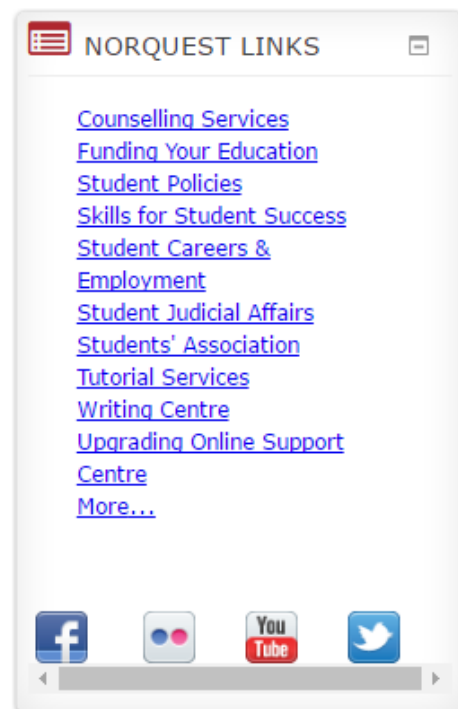

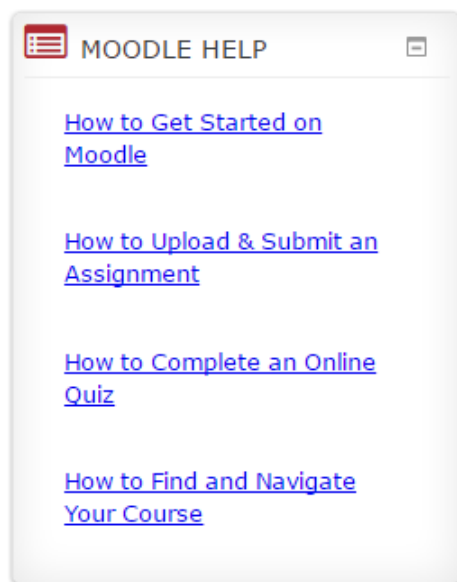

- Moodle Help resources within the Moodle Environment:
 - Dashboard
 - Moodle Tab
- Accessing services for students to get support in Moodle:
 - Computer Commons
 - Booking appointments with a Moodle Advisor for Students

Moodle Help Resources within the Moodle Environment

Dashboard

Moodle Help and NorQuest Links Side Blocks on Student Dashboard

Excellent links to resources may be found on the students' NorQuest Moodle Dashboard. **Moodle Help** assists students in being successful with Moodle and **NorQuest Links** provide information on how to be successful as a NorQuest student and lists support services available. Below are the screen shots of available links, which are followed by links pertaining to Moodle.

Links for student resources for Moodle:

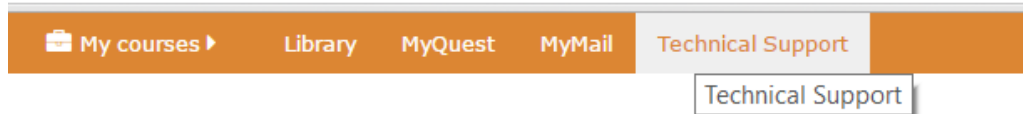

[How to Get Started on Moodle](#)

[How to Upload & Submit an Assignment](#)

[How to Complete an Online Quiz](#)

[How to Find and Navigate Your Course](#)

Technical Support Moodle Tab on all Moodle Pages including the Dashboard

The Technical support tab links students to a **Moodle Support** page where they will find documentation on how to log in to Moodle, as well as other resources. There is a link to a [Moodle Manual for Students](#). [1] This covers an array of topics from navigating Moodle to submitting assignments to netiquette. This is a great resource, which instructors may want to link to in their course.

If students need additional support beyond instructor and online resources, they may also [Book a Moodle Help Appointment](#). [2] Once this link is selected, another page opens where students may reserve a private consultation with a Moodle Advisor. Students may also ask their questions through Moodle Chat. If students require a Moodle Password reset, they are directed to computercommons@norquest.ca.

Moodle Support

There are no System Alerts at this time.

System Setup

Before logging into Moodle, you will need to make sure you have a compatible browser. Recommended browsers when using Moodle include:

- Google Chrome
- Firefox

Other Applications

In order to view some files, media or other items that may be available in your course, you may need some of the following software:

- Adobe Flash
- Windows Media Player
- Java
- Adobe Reader

All Moodle courses reside in MyClass (myclass.norquest.ca) If your course has a Moodle component, you will receive an email to your MyMail account which contains your username and password. Your username and password are usually:

Username: firstinitial+lastname+3 distinct numbers (eg: jsmith123)

This is the same username you use for MyQuest and MyMail.

Password: norquest+last 4 digits of your student id number (eg. norquest4321)

If you have difficulty logging into Moodle:

- please contact Computer Commons at 780.644.6085 or computercommons@norquest.ca.
- You can also access the [Student Manual \(PDF\)](#) which details these login procedures as well as other Moodle tips.
- If you wish to receive further training or help with your Moodle courses, **book an appointment** at <http://libguides.norquest.ca/moodlehelp>.

We can help you at the Edmonton Downtown campus 5th floor Learning Center, online or over the phone.

Accessing Services for Students to get Support in Moodle

Computer Commons

Computer Commons may be reached by email computercommons@norquest.ca. Computer Commons is located on the 5th floor of the A Building downtown in back of the Library.

Booking Appointments with a Moodle Advisor for Students

A student may follow the prompts in the Technical Help tab within the Moodle environment, or they may use the url to come to the NorQuest Library Moodle Student Support Home Page.

<http://libguides.norquest.ca/moodlehelp>

For more information about services for your students contact Computer Commons.
