

Attendance Plugin

Attendance is important for student success. Attendance tracking is imperative for funded students and students on practicums. The Attendance activity allows you to maintain a record of attendance right in Moodle. You may export individual attendance records. Students are able to see their individual tracked attendance. Using the Attendance activity will ensure student/faculty agreement on attendance and increase student motivation to attend.

Add Attendance

Add an Attendance activity to a course in the same way as any other activity:

1. Turn **editing on**
2. Select **Add an activity or resource**
3. Select **Attendance**
4. **Add**

Setting Attendance categories

1. Go to the **Status Set** tab
2. Change the Default **Acronyms** and **Descriptions** if necessary.

If you are using self-recording:

3. Decide time limits to differentiate between present and late: **Available for students (minutes)**.
4. Select **Absent** for **Automatically set when not marked**.

Attendance for the course :: 2016-2017 Moodle Shell Design Master

Sessions Add session Report Export Status set Temporary users

Changes to status sets will affect existing attendance sessions and may affect grading.

Status set 1 (P, L, E, A) 

#	Acronym	Description	Points	Available for students (minutes)	Automatically set when not marked	Action
1	P	Present	15	15	☐	 
2	L	Late	1	30	☐	 
3	E	Excused	1		☐	 
4	A	Absent			☒	 
+					Add	

Adding Sessions

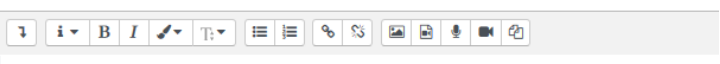

You have two options for adding sessions: adding a single session or adding multiple sessions. It is quicker to add multiple sessions. For the most part, setting up your class attendance timing is self-explanatory. Identify the timing of your class and select **Add**. If you have classes operating at two different times, repeat this step. See pic below. (Note: Students may record their own attendance. See [Self-Recording attendance](#).)

▼ Add session

Type  All students

Date 

Time from: to:

Description 

☒ Create calendar event for session 

▼ Multiple sessions

☒ Repeat the session above as follows 

Repeat on ☐ Sunday ☐ Monday ☒ Tuesday ☐ Wednesday ☒ Thursday ☐ Friday ☐ Saturday

Repeat every week(s)

Repeat until 

Taking attendance

1. Go to the **Sessions** tab.
2. Select the arrow by the date you want to take attendance.

Self-recording attendance

Settings:

Students may also record their own attendance if you configure it in the settings. When adding sessions in the **Add session** tab, select **Allow students to record own attendance**.

Recommended settings below:

Student recording

☒ Allow students to record own attendance ?

Automatic marking ? Disabled

Student password ? ☒ Random password ☒ Include QR code

☐ Automatically select highest status available ?

Require network address ! ? ☐ Use default

Prevent students sharing IP address ! ? Specified time in minutes to release IP 60

Show less

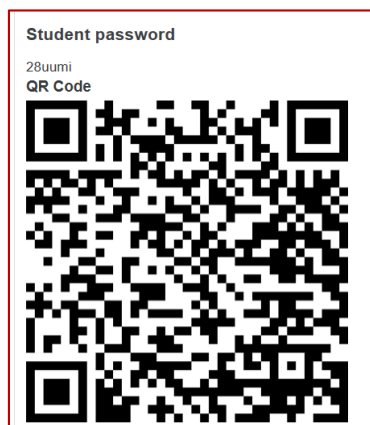

Prevent students sharing IP address does now allow a student to record attendance twice on their device during the time period designated.

Initiating Attendance

During the time periods identified, a key when be displayed in the sessions tab by the given date;

#	Date	Time	Type	Description	Actions
1	Tue 7 Apr 2020	12AM	All students	Regular class session	  

Select this key to activate the QR code and password.

Students' self-recording:

There are two options for students to record their attendance.

1. Students may use the QR code. This will direct them to the Attendance Activity and fills in the password. Students only need to select the status **Present** to record their attendance. The remarks contain the text "Self-recorded". Note: Students will be prompted login to Moodle if they are not.
2. Students navigate to the Attendance activity and uses the password to record their attendance.

Reports

You may generate attendance reports.

- Select the **Report** tab to see an overall view of your class attendance.
