

Keeping your students' comments private

You may use VoiceThread to assess students' skills. When using VoiceThread as an assessment tool, it is important to keep students' work private. There are two locations you are able to turn Comment Moderation on.

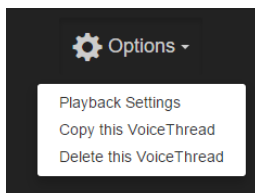

Location 1 on the Edit Page

Playback Settings for VoiceThread is on the **Edit page** of VoiceThread. For VoiceThreads already created, navigate to the **Edit page** by selecting the hamburger menu top left.

On the Edit page:

1. Open the **Options** dropdown menu at the top right of the editing page. Choose **Playback settings**.

2. Playback Options will appear. Ensure **Enable Comment Moderation** is checked.
3. Select **Save**.

Thread Settings

Title/Description

Playback Options

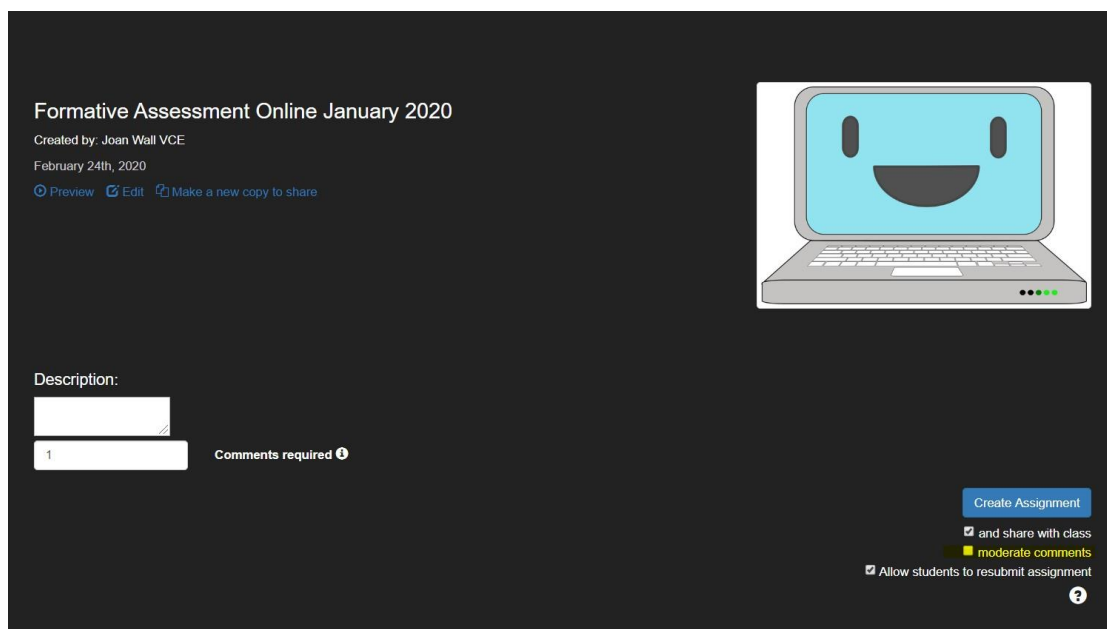

Cover Art

- ☐ Enable threaded commenting
- ☒ Allow others to download original media
- ☒ Allow others to export
- ☒ Start playing when opened
- ☐ Allow others to make a copy
- ☒ **Enable Comment Moderation**
- ☐ Automatically advance to the next slide after 4 seconds
- ☐ Don't allow commenters to delete their own comments

Save

Location 2: Activate VoiceThread page.

You will also be able to select **moderate comments** when you have completed editing your new VoiceThread before making it active for your class. Before selecting **Create Assignment**, check the **moderate comments** box if you want the comments private. (On this page, you will also be able to add an overall description and identify how many comments students need to make before the VoiceThread assignment is complete.)

The screenshot shows the 'Formative Assessment Online January 2020' assignment page. It includes a 'Description' field with a text area and a 'Comments required' dropdown set to '1'. A 'Create Assignment' button is visible, along with checkboxes for 'and share with class', 'moderate comments' (which is highlighted in yellow), and 'Allow students to resubmit assignment'. A laptop icon with a smiley face is also present.
