

Creating a VoiceThread in your Moodle course

Recording narration on a presentation is the most common use of VoiceThread. Students and instructors may add video, audio or text comments to a presentation. Comments may be a part of a collaborative discussion regarding a topic the instructor has introduced. Students may also be comment to answer questions posed. Comments left on a VoiceThread may be visible to all, or kept private so only the instructor may view student responses. Students and instructors may add video, audio or text comments to a presentation. This is a very engaging activity for both students and instructors.

Steps to Creating a VoiceThread for Student Comments

1. Turn editing on.
2. Go to the section of the course you want. Select **Add an activity or resource**. Select **VoiceThread**. Select Add.
3. Settings: Generally, you only need to manipulate 2 settings.
 - i) Give an **Activity name**: Location, Voice Thread: Topic
 - ii) Select **Accept grades from the tool**. (This allows you to choose Assignment Builder so you are able to track students' progress.

- iii) Select **Save and display**.

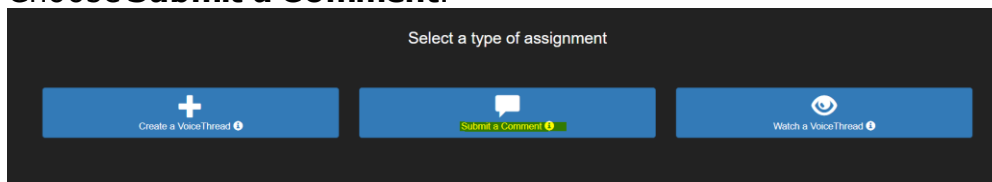

4. Select **Open in a new Tab?** (Center top of the VoiceThread)

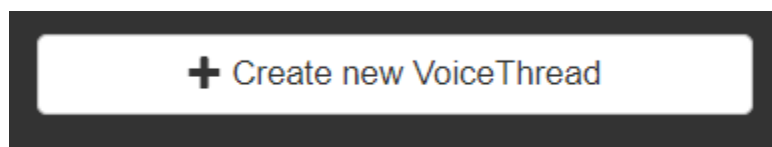

5. Choose **Assignment Builder**.

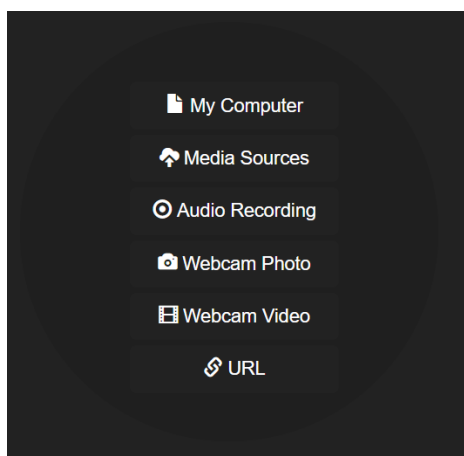

6. Choose **Submit a Comment**.

7. **Create new VoiceThread**. (top left)

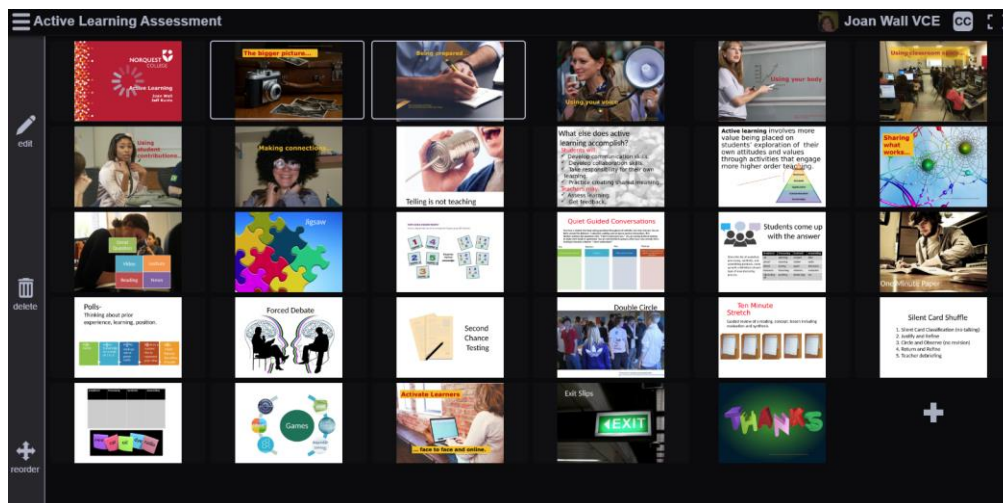

8. **Add Media**. You have several option for including media to your presentation. If you choose a single source of media (Webcam video) this will be your VT first page. You may add more pages. If you choose uploading a PowerPoint, (**My Computer**) each slide will become a single slide of your VT.

Setting up a VoiceThread in Moodle: Students Leave Comments

9. Once you have added your media, the **Edit page** will display. Here may edit, move and delete slides.

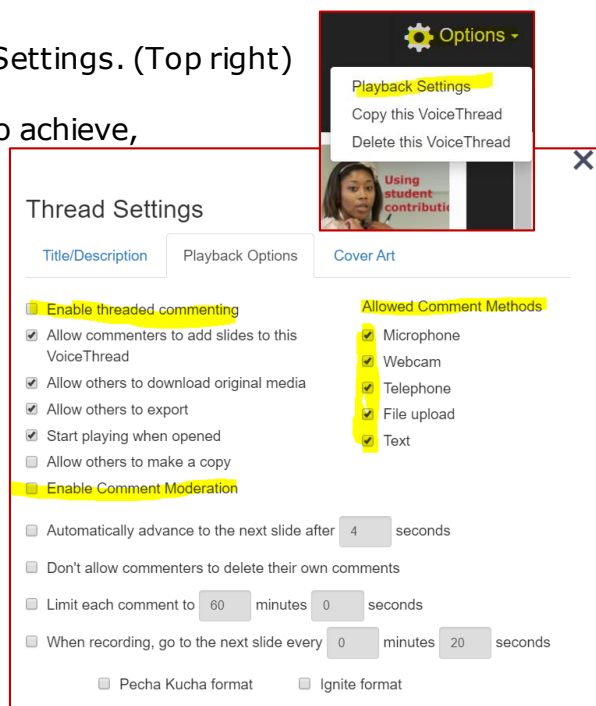

- Edit:** If you would like to add a title to you slide or provide a link to a web based resource you drag the slide you want to edit to the **edit icon** the left. You may provide an external resources to give more context to the topic on the slide.
- Delete:** Drag slides to the delete icon on the left to remove from your presentation. Comments on slides will be deleted as well.
- Reorder:** Drag the slides on the page to the order you want. (This is similar to PPT.)

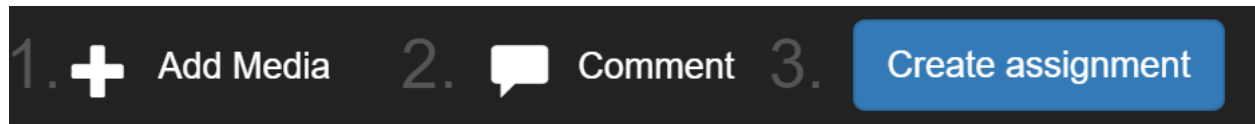

10. Decide on the appropriate Playback Settings. (Top right)

Depending on the outcomes you want to achieve, you may decide on different settings:

- Choose the **Allowed Comment Methods** to Webcam and Microphone only, if you want a sample of the students' oral language. You may take the phone option off if you are worried about students' phone plans.
- Enabling threading commenting** allows students to comment on other students' responses.
- Comment Moderation** is a feature that allows comments to be private. Checking this allows you to use VT for assessment.

(Check other settings too!)

11. You may choose to Comment on slides here, or do this on the VT page. Select **Share**. You may also choose to copy the link to share with guests who do not need to go through Moodle.
