

Reusing VoiceThreads in Moodle

When you Import or Restore a Moodle course, VoiceThreads do not migrate over. Moodle cannot strip the student data attached to VoiceThreads. Use these directions to re-use past VoiceThreads and strip student data.

1. Go to your course and create a VoiceThread by
 - i. **Turn Editing On,**
 - ii. **Add an Activity or Resource** and
 - iii. Select **VoiceThread**. Select **Add** at the bottom of the dropdown list.

2. Settings: Give your VoiceThread a name using the location in the course, Type of activity and Subject. For Weekly modules, **W1 VoiceThread Topic**. Decide whether this is a marked assignment. Select **Save and Display**.

Type

None

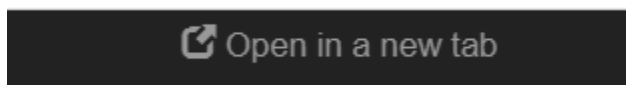

Scale

Default competence scale

Maximum grade

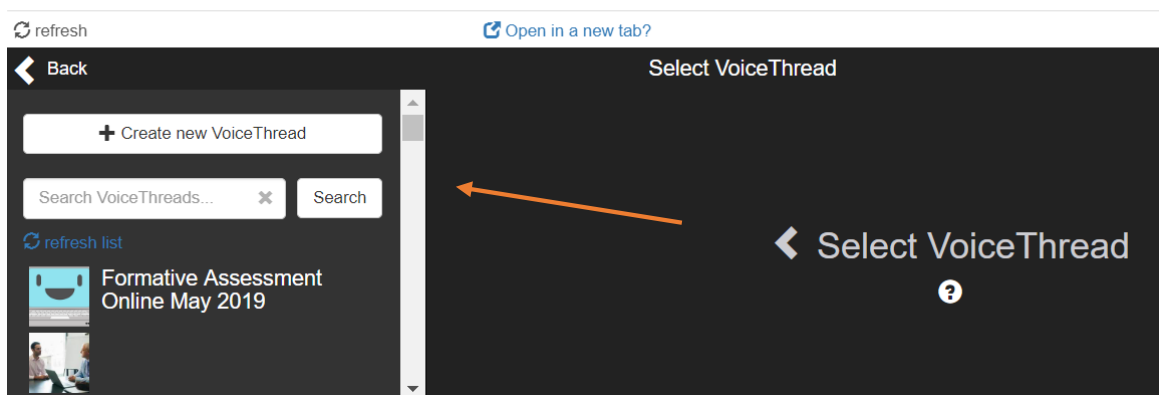

100

3. Open your VocieThread in a new tab for ease of navigation. (top center)

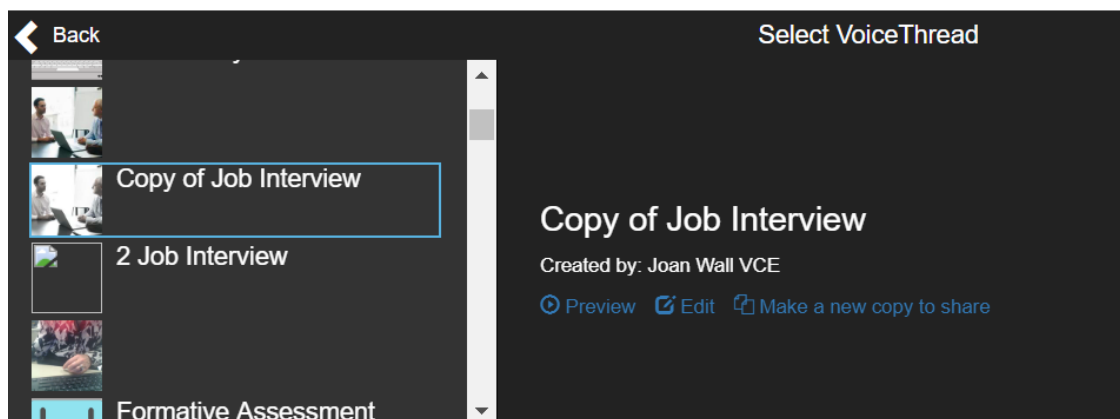

4. You will be prompted to select what type of VoiceThread you are creating. Most of the time you will be selecting **Assignment Builder** and **Submit a Comment**.
5. Use the scroll bar to select the VoiceThread you wish to re-use.

W1 VoiceThread Topic

6. Select **Make a new copy to share**.
7. Give your VoiceThread a new title. Using a date is helpful (Formative Assessments Online Fall 2020). Your description should stay the same.

8. A new menu will display. Change **Which comments would you like to keep?** to **Include only my comments**. Select **Save**.

New Title

Job Interview June 2019

New Description

Please respond to the interview questions.
