

How to Upload a Video to Google Photos

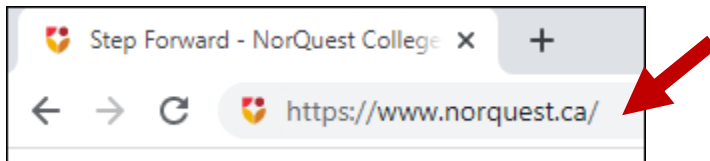

You will need to create videos to demonstrate skill development. This tip sheet explains how to upload a video to Google Photos.

The first step will be to create your video using your device and saving it to your computer. If you are using your camera on your phone, you may choose to email your video to yourself and save it.

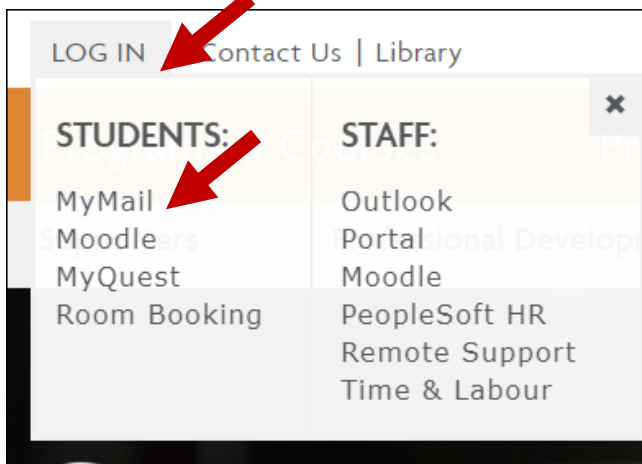

Log in to G-Mail

Google Photos is a photo sharing and storage service. In order to use Photos, you will need a Google account.

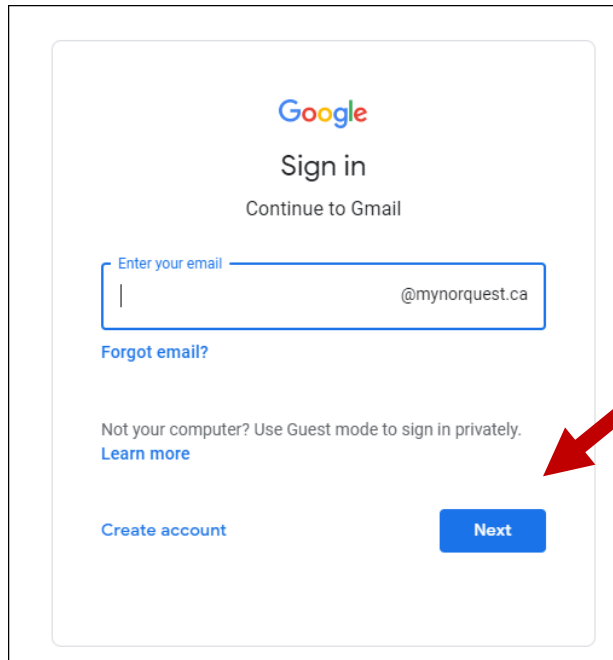

1. Start by navigating to [norquest.ca](https://www.norquest.ca/).

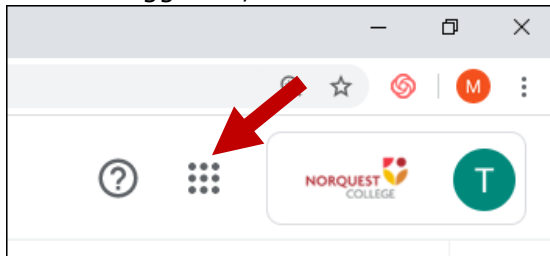

2. Click on '**Log In**'. Under **Students**, click on '**MyMail**'.

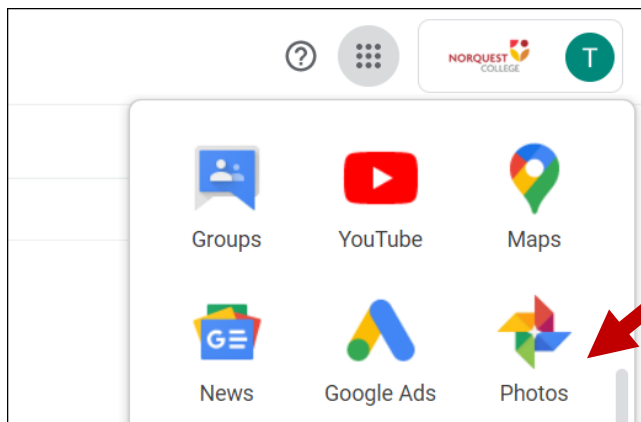

3. **Sign in.** As a NorQuest student, you have a Gmail address; your NorQuest email. You can also use a personal Gmail account.

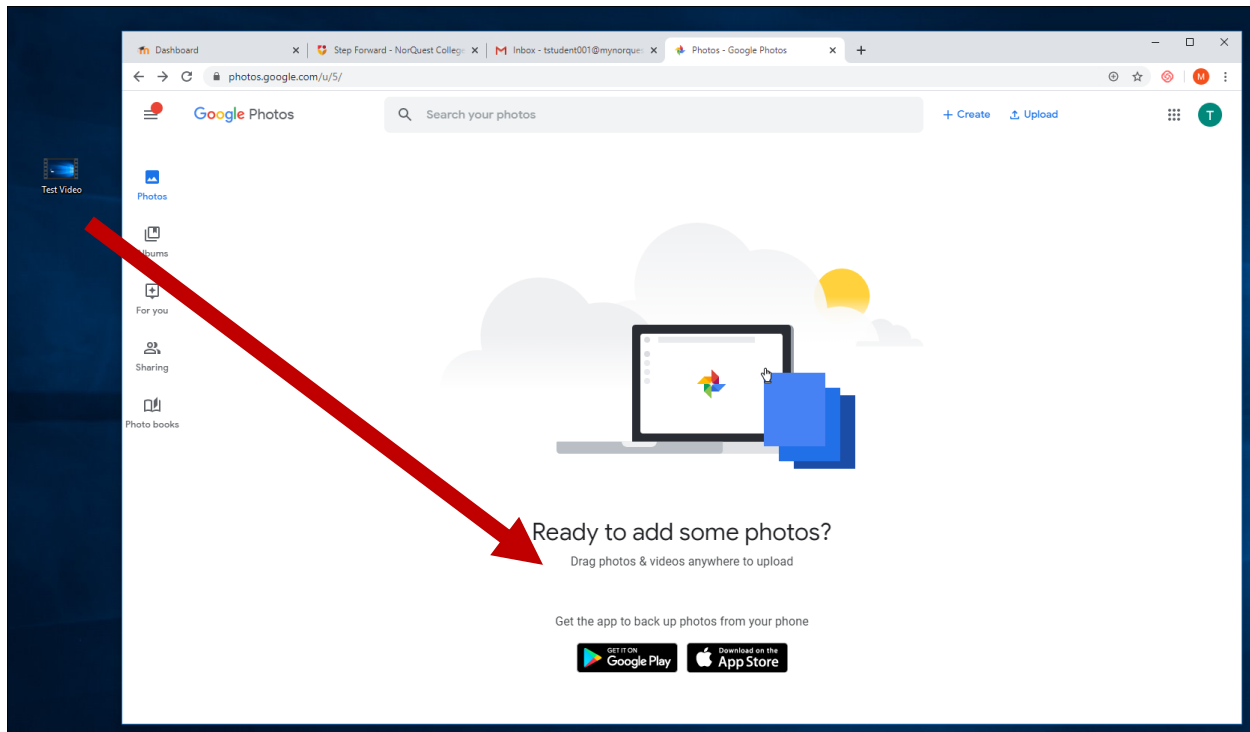

4. Once logged in, locate the **waffle** in the top right hand corner.

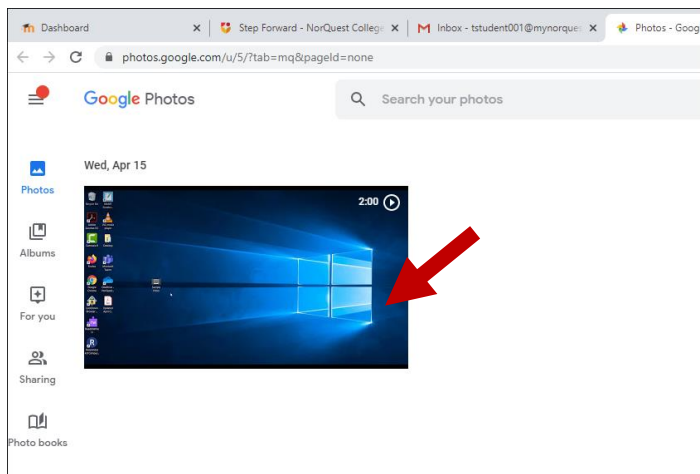

5. Locate **Photos**.

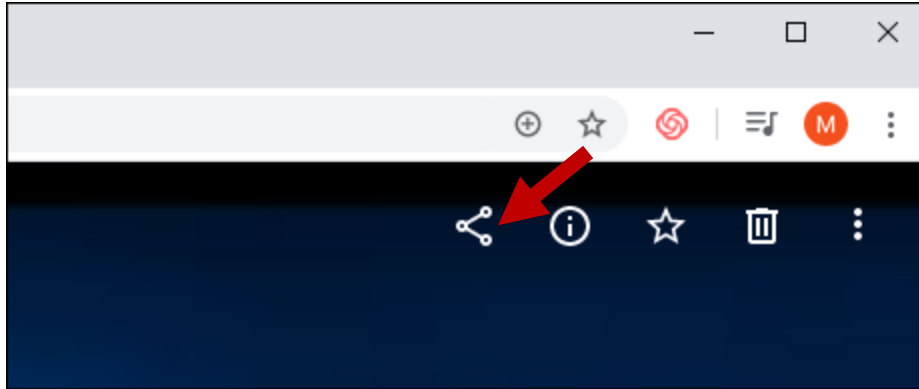

6. Upload your video. To do this, **drag and drop** the file you want to upload.

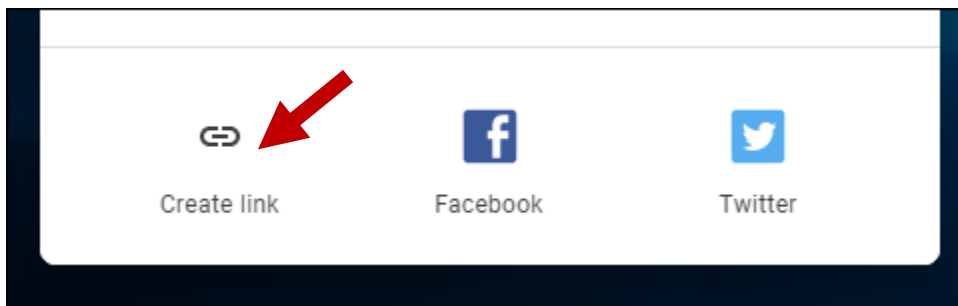

7. Once uploaded, **click** on your video.

8. Click on the **Share icon** in the top right hand corner.

9. Click on **Create link**.

10. **Copy the link and send it to your instructor.**
