

How to Upload a Video to YouTube

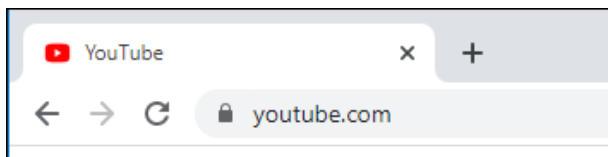

You will need to create videos to demonstrate skill development. This tip sheet explains how to upload a video to YouTube.

The first step will be to create your video using your device and saving it to your computer. If you are using your camera on your phone, you may choose to email your video to yourself and save it.

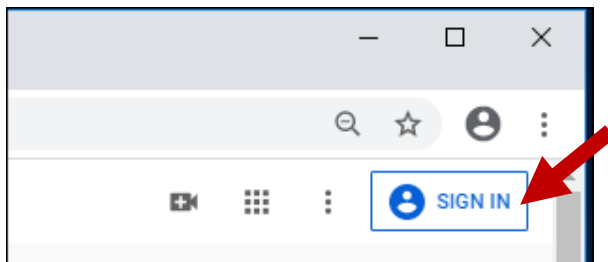

Creating a YouTube Account

Google Drive is a free cloud storage. In order to use YouTube, you will need a Google account. As a NorQuest student, you have a Gmail address; your NorQuest email. You should be able to sign into YouTube using your Gmail (NorQuest email) information. You can also use a personal Gmail account.

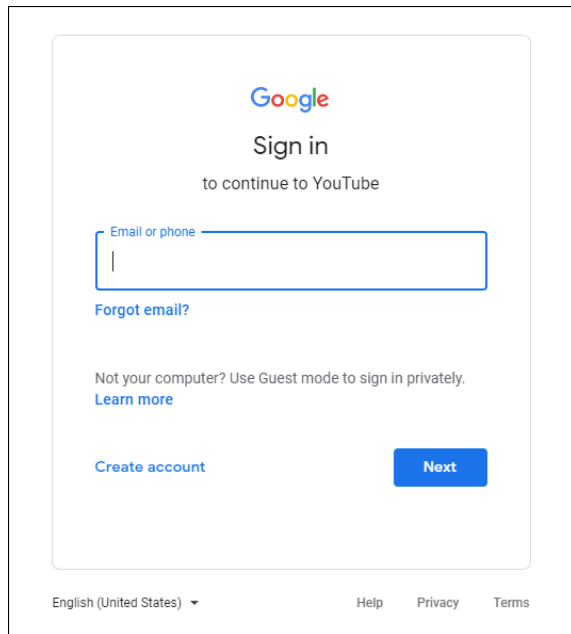

1. Start by navigating to youtube.com

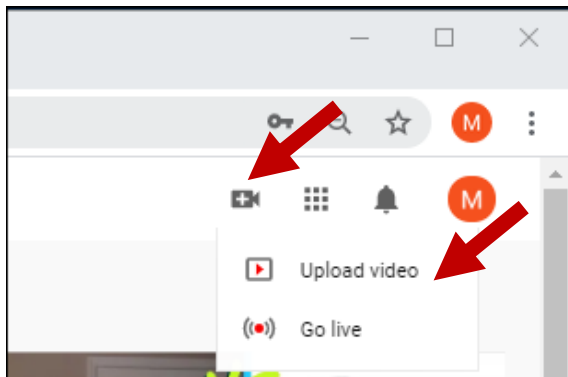

2. Click on '**Sign In**'.

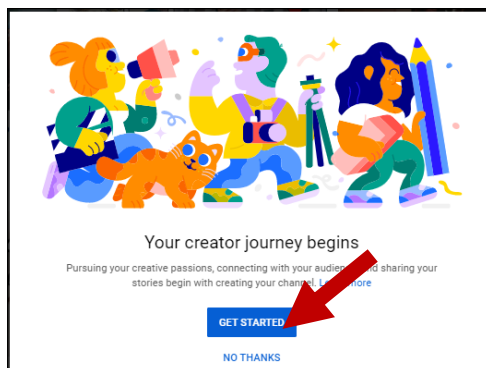

3. **Sign in** with your Gmail account.

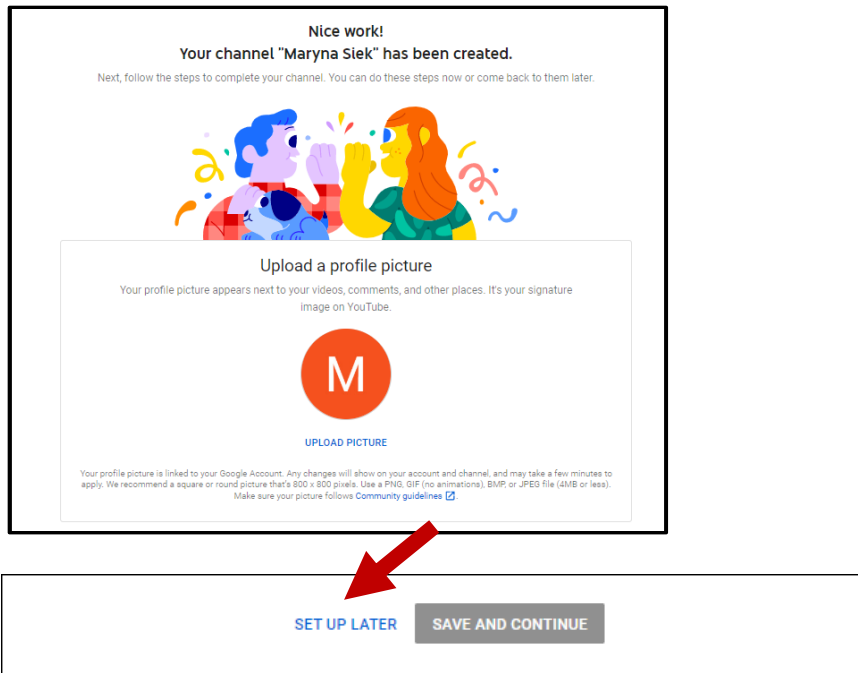

4. In the top right hand corner, click on the '**Create a video and more**' icon, then select '**Upload video**'.

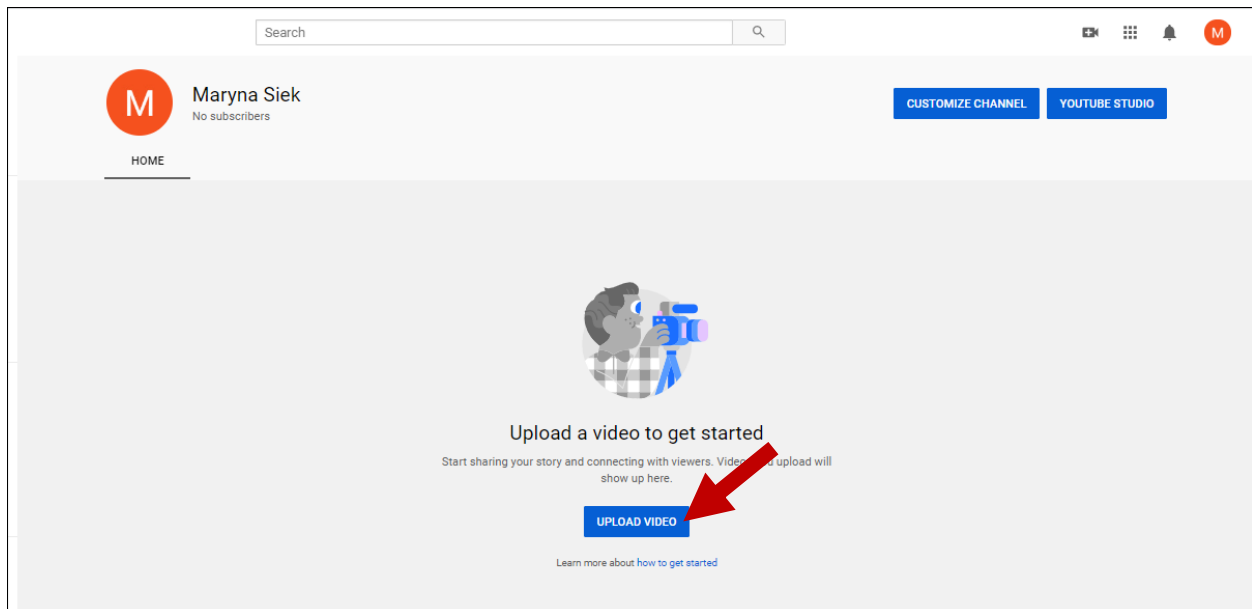

5. Create a YouTube channel by clicking '**Get Started**' on this screen.

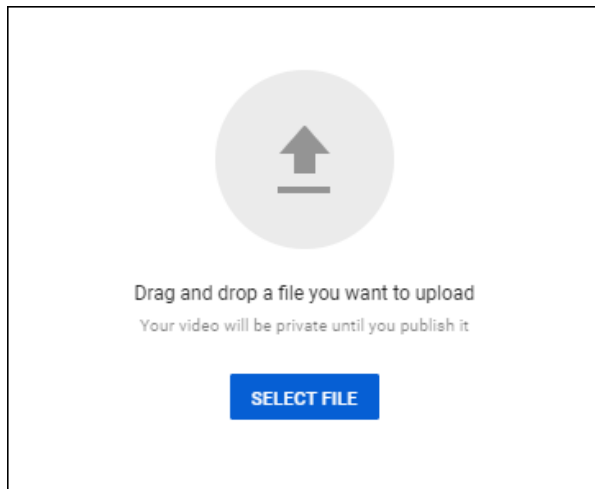

6. **Create your channel.** When prompted to fill in information, **select 'Set up later'**.
NOTE: Navigate to your email to **verify your account**. This allows you to upload files larger than 15 minutes. *(Step not show in tip sheet)*

7. Next, upload your video. To do this click on **'Upload Video'**.

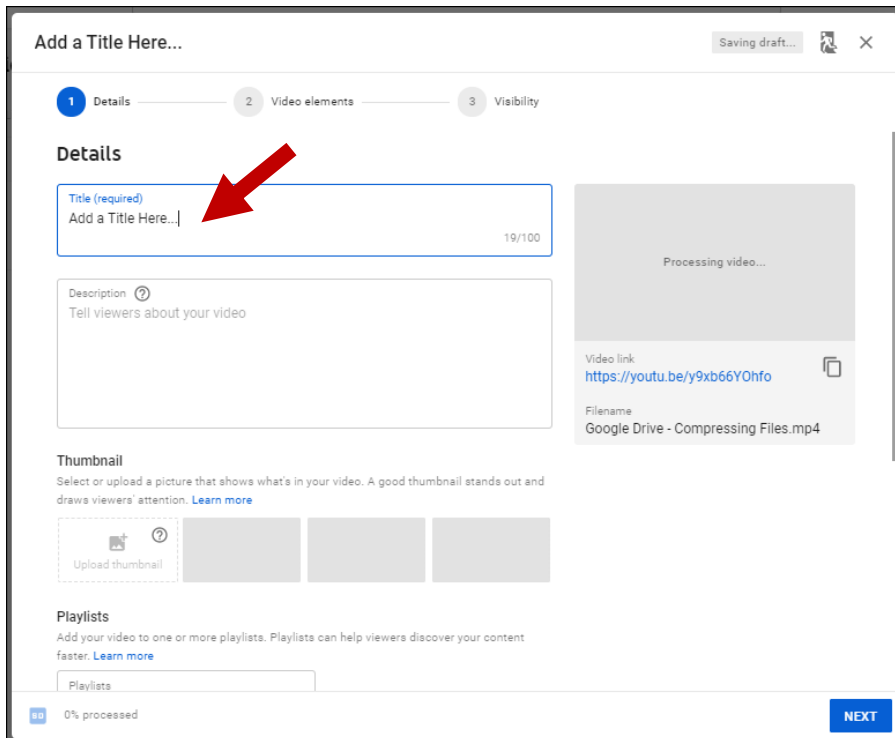

Drag and drop a file you want to upload, or click **'Select File'** to browse to the file.

Once your video starts uploading, you will have three setting options: Details, Video elements and Visibility.

Under Details, add a video title.

The image displays the YouTube video upload settings interface. At the top, there's a header "Add a Title Here..." with a "Saving draft..." status and a close button. Below this is a progress bar with three steps: "1 Details", "2 Video elements", and "3 Visibility". The "Details" tab is active. Under the "Details" section, there's a "Title (required)" field with a red arrow pointing to it, containing the placeholder text "Add a Title Here..." and a character count "19/100". Below the title field is a "Description" field with a help icon and the text "Tell viewers about your video". Further down is a "Thumbnail" section with instructions and a "Learn more" link, followed by a "Upload thumbnail" button and three placeholder images. At the bottom, there's a "Playlists" section with instructions and a "Learn more" link, followed by a "Playlists" input field. A progress bar at the very bottom shows "0% processed" and a "NEXT" button.

Scroll down and locate **'Audience'**. Select **'No, it's not made for kids'**.

Regardless of your location, you're legally required to comply with the Children's Online Privacy Protection Act (COPPA) and/or other laws. You're required to tell YouTube whether your videos are made for kids.
