

How do I clear cache in my Browser?

Description:

When you browse the internet and visit different sites, your browser saves several contents of data in temporary storage. This temporary storage is called "cache". To get rid of the cache you should clear it from time to time.

This should be done on a regular basis in order to help the browser work more efficiently and avoid corruption of that data which can cause issues with accessing websites or entering passwords.

Instructions:

Clear cache & cookies for Chrome

1. On your computer, open Chrome.
2. At the top right, click the Chrome menu button.

3. Click More tools > Clear browsing data.

4. At the top, choose the time range "All time".

5. Next to "Cookies and other site data" and "Cached images and files," check the boxes.

6. Click Clear data.

Clear Cache, Cookies and History in Edge

The controls to clear your Cookies, Browsing history, cache and other data in Edge are all stored on the same menu. To get to these controls and choose what you want to clear, follow the instructions below.

1. Click the "Settings and more" button. In the top right hand corner of your Edge browser's window, you will see a small button with 3 dots in it. This is the "Settings and more" button

2. Clicking on it will reveal a menu with more options, at the bottom of the menu, click **Settings**.

3. The Settings menu will now appear. Scroll down to the "**Clear browsing data**" section.

4. Click the button labeled **Choose what to clear**.

5. You will be presented with a large list of checkboxes for various items which can be removed from the Edge.

6. Choose what you would like to clear from the Edge by using the blue and white checkbox. Uncheck anything you don't want to be cleared.

7. It's most common to clear **Browsing history, Cookies, Cached data** and **Tabs I've set aside....** You may want to keep items like **Form data, Passwords** and **Media licenses...**

8. Once you have made your choices about what you want to clear from Edge, click the **Clear** button.

This will make Edge clear the selected types of data from your computer.

Once it's finished, it will say **All clear!** underneath the **Clear** button. Now you can then simply close the Settings menu and restart the browser to continue browsing.

Clear Cache for Internet Explorer 11

To clear the cache in Internet Explorer 11, follow these steps:

1. Open Internet Explorer 11
2. Click the Settings icon (top right corner) and click **Safety**
3. Click **Delete browsing history**
4. Check the **Temporary Internet files and website files** option
5. Click **Delete**
6. A confirmation message should appear
7. Restart Internet Explorer 11

Clear Cache for Firefox

1. Click the menu button  and select **Options**.
2. Select the Privacy & Security panel.
3. In the **Cookies and Site Data** section, click **Clear Data...**.

4. Remove the check mark in front of *Cookies and Site Data*.
 - For more information about managing site data, see [Manage local site storage settings](#).
5. With *Cached Web Content* check marked, click the **Clear** button.
6. Close the *about:preferences* page. Any changes you've made will automatically be saved.

Tip: Here's another way to clear the Firefox cache:

Click the Library button , click History and click Clear Recent History.... Next to **Time range to clear**, choose **Everything** from the drop-down menu, select **Cache** in the items list, make sure other items you want to keep are not selected and then click the **Clear Now** button. See [this article](#) for details.

Automatically clear the cache

You can set Firefox to automatically clear the cache when Firefox closes:

1. Click the menu button  and select **Options**.
2. Select the Privacy & Security panel and go to the **History** section.
3. In the drop-down menu next to **Firefox will**, choose Use custom settings for history.

4. Select the check box for **Clear history when Firefox closes**.

5. Beside *Clear history when Firefox closes*, click the **Settings...** button. The Settings for Clearing History window will open.
6. In the Settings for Clearing History window, put a check mark next to **Cache**.

7. Click **OK** to close the Settings for Clearing History window.
8. Close the *about:preferences* page. Any changes you've made will automatically be saved.
